

# 'CONNELL FREED BY PAYMENT OF \$40,000 RANSOM AFTER BEING HELD BY KIDNAPERS FOR THREE WEEKS

## TEMPORARY CODE FOR SMALL STORE ALLOWS 48 HOURS

### Johnson Grants Concession as Representatives Agree to Minimum Wages for 'White Collar' Workers.

### NOT A PRECEDENT, LEADER DECLARES

### Move Taken Under Section Permitting Adoption To Prevent Hardship To Business.

By THOMAS L. STOKES.  
Copyright, 1933, by United Press.  
WASHINGTON, July 30.—(UP)—General Hugh S. Johnson, national recovery administrator, agreed tonight the first modification in President Roosevelt's voluntary blanket code in approving a temporary code for the retail trade affecting 5,000,000 white-collar workers.

Johnson acquiesced to the insistence that small retail stores be permitted to employ workers up to 48 hours a week, instead of limiting hours to 40 as the voluntary agreement provides.

Representatives of the retail trade, who were closed for several hours by the code, agreed tonight with Johnson today, agreed to the minimum wage scales for the "white-collar" class, which range from \$12 to \$15 per week, according to population of towns and cities.

**First Such Concession.**

The concession on hours, which permits a graduation up to 48 hours a week, is the first "break" in the voluntary code.

This modification may open the way for others.

The temporary retail code, to be effective until the trade submits its permanent code, was formulated under Section 13 of the blanket code, which permits an industry to substitute provisions of its permanent code for the blanket code on approval of the NRA.

This is the first such case. A number of other industries, including labor, are seeking a similar "stop-gap" code. It would constitute a bit of cross between the regulation of hours and the permanent code, which may be adjusted to different needs.

**Not a Precedent.**

Johnson will insist that this code be a temporary expedient, and that it be not to be granted by other industries. He will take the position that it is in the administration's announced intention to avert hardships.

The interpretation of the blanket code issued last week promised relief in the retail trade—dry goods, grocery stores, clothing, drug stores, etc.—the code does not establish a precedent. He will take the position that it is in the administration's announced intention to avert hardships.

The interpretation of the blanket code issued last week promised relief in the retail trade—dry goods, grocery stores, clothing, drug stores, etc.—the code does not establish a precedent. He will take the position that it is in the administration's announced intention to avert hardships.

## Drops "\$25,000,000"

This is Edward A. (Doc) Crawford, of New York, "mystery man" of the grain trading pits and former Bainbridge (Ga.) physician, who has been suspended for insolvency by the Chicago Board of Trade. Lest than two weeks ago Crawford boasted a net profit estimated at \$25,000,000. For one day he was complete master of the grain market.

## FEDERAL INCOME SHOWS INCREASE

### Revenue From Other Than Income Tax Sources Best Since Wartime.

WASHINGTON, July 30.—(UP)—Revenue other than income taxes is pouring into the United States treasury at a faster rate than at any time since the war-time taxes were repealed, official figures showed tonight.

Miscellaneous internal revenue, which includes beer, tobacco and various manufacturers' excise taxes, reached approximately \$110,000,000 this month, the highest collection for this class of taxes since August, 1922, when the capital stock tax of that year boosted miscellaneous internal revenue to \$113,961,344.

In the first 27 days of July, the government collected \$144,563,789 in all classes of revenue, against \$76,013,404 in July, 1932. At the same time, expenditures were less than those in the recovery program fell from \$335,581,467 a year ago to \$212,729,074.

This left a deficit in "ordinary" operations for this period of \$32,000,000, against a deficit of \$290,000,000 in the first 27 days of July, 1932. Not included in these figures is \$60,000,000 spent in relief activities this year as compared with \$125,000,000 spent by the Reconstruction Finance Corporation a year ago.

The newly imposed beer taxes, now running close to \$15,000,000 monthly and the new excise taxes not in effect a year ago, naturally improved this year's comparison. An impressive growth of miscellaneous internal revenue, nevertheless, is shown in the first seven months of this year.

Internal revenue collections other than income tax for the first seven months of this year compared with those of a year ago are as follows:

1932	1933
January \$37,907,843	\$ 66,769,261
February 35,568,900	64,333,758
March 39,313,229	67,188,717
April 35,470,413	69,310,293
May 36,270,105	93,501,924
June 46,307,247	106,488,764
July 42,000,000	110,000,000

Estimated.

Along with the improvement in miscellaneous internal revenue, other income of the government has risen above the corresponding period of last year. Customs receipts, a lucrative source of revenue in the first 27 days of July were \$20,626,235, against \$16,094,046 in the corresponding month of last year, the highest in about eight months.

## Storm Passes Inland Near Stuart, Florida

### Winds Reach Velocity of 50 to 60 Miles as Disturbance Strikes East Coast But Little Damage Is Done.

FORT PIERCE, Fla., July 30.—(AP)—The Bahaman storm entered the coast line south of here this afternoon and was blowing across the Florida peninsula tonight, but available checks revealed casualties and only superficial property damage.

Nowhere were winds of hurricane force reported. At Stuart, which appeared to have been near the center of the storm, the wind reached 50 to 60 miles per hour. Here the estimated maximum was 60 miles. A hurricane wind is 75 miles or more.

Communications and power lines were blown down north of Stuart and several small communities were isolated. Considerable citrus in the area may have suffered from the blow. Highways were blocked with debris of trees and traffic was halted between this city and Stuart.

Weather bureau observers estimated the center of the storm passed north of Okeechobee City at the head of the lake by that name. A 60 miles per hour wind was reported in Okeechobee this afternoon.

Inhabitants of the low-lying farm lands around the southern and eastern shores of the lake were largely evacuated to higher ground as a precautionary measure. Trains were moved from Canal Point and Belle Glade to take out 2,000 persons. A similar number from another section were taken to high ground yesterday.

Stuart reported minor damage. One house unroofed and trees and telephone poles blown down. A high tension power line across the highway north of the city but power had been shut off before the storm to avert such danger to traffic.

Inhabitants of the area visited by the storm generally had taken precautions of boarding up houses and places of business. Many folks moved out to the north by automobiles from east coast communities.

No check of possible loss to citrus groves in any area was available tonight.

### ONE KILLED, SIX INJURED BY TORNADO IN TEXAS

DALLAS, Texas, July 30.—(AP)—I. C. Searcy, 22, was killed and six or more persons were injured today when a tornado ripped through Lake Cliff, a residential section to the southwest part of Dallas. Searcy was crushed under a house.

An entire block of homes was reported to have been demolished and considerable damage was reported as far west as Irwindell, a residential section west of Oak Cliff.

Rain fell heavily. The army air corps aerological station at Hensley field, near Grand Prairie, reported a 40-mile wind at 3 p. m. One motor car was turned upside down and houses were unroofed in Ravinia Heights, west of Oak Cliff.

### SARASOTA RESIDENTS PREPARE FOR STORM

SARASOTA, Fla., July 30.—(AP)—Residents along the lower Florida west coast tonight made ready for the tropical storm which the weather bureau said likely would pass into the Gulf of Mexico somewhere north of Fort Myers.

Houses were boarded up and boats hauled down although it was believed the intensity of the storm had lessened considerably since it entered the peninsula near Stuart this afternoon.

In Sarasota, the Red Cross, American Legion, and Boy Scouts were standing by.

### U. S. SELLS BONDS TO FINANCE NRA

### \$850,000,000 in Securities Offered to Public To Supply Recovery Cash.

WASHINGTON, July 30.—(AP)—An \$850,000,000 issue of government securities was offered today to the public for use in retiring indebtedness and to finance the administration's recovery program.

Dean Acheson, acting secretary of the treasury, said the issue would consist of \$500,000,000 eight-year 3 1/4 per cent bonds and \$350,000,000 notes with 6-8 per cent treasury notes. The bonds will be the first in two years.

Through this program and money in the treasury's general fund, the government has approximately \$1,000,000,000 available in mid-August for the recovery efforts. The bonds will be in denominations as small as \$30 and the notes as small as \$100, making them available to people in ordinary circumstances as well as to large investors who ordinarily over-subscribe all government security issues.

Subscriptions for the bonds, for which payment is offered in treasury certificates maturing September 15, will be allotted in full while preferred status will be given subscriptions which offer payment in treasury certificates maturing August 15.

Acheson reserved the right to increase the total amount of bonds to be sold to pay off all of the certificates that are offered in exchange for the bonds.

The financing is expected to give the treasury approximately \$400,000,000 in new money after paying off the maturing certificates.

There is now in the general fund \$337,878,856. Officials hope this will be more than \$800,000,000 by August 15, when the financing is completed.

## 792 NRA PLEDGES SIGNED IN STATE; DRIVE SPEEDED

### Insignias for 'We Do Our Part' Members To Be Distributed by Administration Forces Tuesday.

Application of the national recovery code to business occupations ranging from the making of plowshares to the curling of mildy's tresses went forward in Georgia during the week-end.

Thousands of employers in city, hamlet and crossroad received blank forms for their covenant with the president of the nation to give work to more people at higher earnings.

When W. L. Mitchell, district manager of the department of commerce, closed his office in Atlanta Saturday night, he had received pledges from 792 people throughout the state. They were forwarded to President Roosevelt with dispatch. That number of favorable replies to President Roosevelt's appeal promised better pay for 5,544 employees.

**Insignia Available Tuesday.**

Mr. Mitchell said there was some confusion in that employers falling in line wanted to receive the national recovery insignia forthwith. That token will not be available until Tuesday, he pointed out.

Led by the textile industry, which placed its code of fair competition into effect two weeks ago, business has engaged in a sort of sprint to join hands with the president.

At Atlanta retail merchants, including grocers, have agreed to the terms of a new schedule of working hours Tuesday. None will stay open longer than the hours between 7:30 a. m. and 5:15 p. m. except on Saturdays. Then they will close the doors at 6:30 p. m. The rule does not apply to restaurants and similar establishments.

Retailers in principal Georgia cities are making schedules similar to great extent.

### Mass Meeting Planned

A mass meeting of Atlanta citizens planned soon to acquit the people more fully with the purposes and set-up of the recovery program. A committee selected by the Chamber of Commerce will meet Monday to launch the drive aimed at finding jobs for 12,000 unemployed here.

Groups that have arranged conferences to adopt new schedules of working hours include the Atlanta Association of Fire Insurance Agents, retail druggists, furniture dealers, automobile dealers, the Atlanta Jewelers Guild, the Southern Warehouse Association, the hair dressers of the city, and barbers of Fulton and De Kalb counties.

Workers in law offices also will share in the benefits. The Atlanta Bar Association has agreed the terms of the recovery program apply to attorneys' employees as well as business workers.

A mass meeting for the purpose of similar action pending government approval of their national code.

Cities reporting recent agreements to the national code include Decatur, Dalton, Columbus, Augusta, Gainesville, Valdosta, Brunswick and Barnesville.

A mass meeting for the purpose of discussion of the action to be taken by the city of Hapeville, will be held at 7:45 o'clock tonight at the Hapeville auditorium. Roy LeCarter, chairman of the chamber of commerce, and George Googe, labor representative, will be present.

### Facing Trial for Reckless Driving, W. O. Anderson Shoots Self.

One day before he was to have faced trial for drunk and reckless driving, Willis Olen Anderson, 48, for 22 years connected with the city sanitary department, fatally shot himself Sunday morning at his home at 882 Dill avenue, S. W., according to police tonight.

He died at a private hospital.

Anderson was arrested Saturday night by police and charged with drunk and reckless driving. He was taken to the police station but was later released under \$200 bond. His trial was set for 2:30 o'clock this afternoon in recorder's court, police said.

By virtue of being connected with the sanitary department, Anderson carried a pistol but police would not allow him to take it with him upon his release. He shot himself at his home with a shotgun seven hours later.

Anderson, apparently in good health Sunday morning, walked into his home at approximately 11 o'clock and entered his bedroom. A few seconds later, the explosion of a shotgun was heard and members of the family and neighbors rushed in to find Anderson lying on the floor with a 12-gauge shotgun by his side. He was wounded in the chest an inch below his heart.

Carried to a private hospital, Anderson died within a few minutes after being taken into the emergency clinic.

For many years, he had been night superintendent of street cleaning with the sanitary department and was assistant to John Jentzen, chief of the department. Anderson did not work Sunday night.

Mrs. G. Klasseit, of 1962 Hartford avenue, S. W., said she met Anderson approaching his home Sunday morning and that he spoke to her and inquired after her health. When she asked him how he felt, he did not reply but walked on into his home. A moment later she heard the shot, Mrs. Klasseit said.

### New Orleans Bakers Refuse NRA Support

NEW ORLEANS, July 30.—(U.P.)—Master bakers of this city today refused to fall in line with President Roosevelt's blanket code for all industries, contending that the code would automatically call for an increase from 30 to 50 per cent in bread prices.

The announcement, made by P. H. Daniel, secretary of the Master Bakers' association, followed an executive session of the organization.

In refusing to sign the voluntary agreement, the bakers declared, "It is the belief of the bakers that the mass of the consuming public cannot at this time afford to pay such prices for bread, and will not be able to do so until a greater number of people are put to work and general wages are increased."

Recently the price of a loaf of bread was increased by the bakers of the city, one cent on a five cent loaf, and two cents on a ten cent loaf. Members of the bakers union protested the price hike, contending it was unequalled for as the bakers had not even begun restoration of wages.

### Five Persons Hurt In Railroad Wreck

ALTOONA, Pa., July 30.—(AP)—Five persons were injured tonight, four seriously, as the Pennsylvania railroad's fast Liberty Limited ran through a switch, careened from the tracks and demolished a signal tower at the entrance to the Altoona station.

The injured: Frank Buck, the engineer, of Harrisburg, Pa.; Carl Linenbaugh, the fireman, of Duncannon, Pa.; Bruce Miller and Charles Hoover, Towermen, of Altoona; and Louis Zeidman, a passenger, of Chicago.

Buck and Linenbaugh were scalded as the big westbound locomotive rolled over on its side and turned completely around, with the front end pointed eastward.

## Reunited by Boy's Release

John J. O'Connell Jr., at the left, reunited with his father, John J. O'Connell, lower right, and his sweetheart, Miss Mary Fahey, upper right, when he was freed by kidnapers Sunday after three weeks of captivity. He had been with Miss Fahey just a few minutes before he was snatched from in front of his Albany home.

## JACKSON WOMEN FACE TRIAL TODAY

### Pair To Be Heard on Lunacy Writs After Holding Mother Prisoner.

JACKSON, Ga., July 30.—Misses Allie and Grace Jarrell, both about 35 years of age, who held their mother and an elder sister prisoners under the point of a gun for ten days in an effort to get for themselves a share of their father's estate, will be tried at 10 o'clock Monday morning before Judge G. E. Head, Butts county ordinary, on charges of lunacy. They were arrested Saturday afternoon after being evicted from their barred and barred home in the center of Jackson by the use of tear bombs.

The Misses Jarrell, members of Butts county's wealthiest family, held Mrs. Anna Jarrell, 70, and their elder sister, Mrs. A. A. Fuqua, incommunicado in their 12-room residence on the main street of Jackson for several days, the mother having been a prisoner for ten days and the sister for five days. Threats were made against them by the sisters but neither was harmed.

Mrs. Fuqua, who escaped Wednesday and notified county officers, Sunday said she and her mother had no food during the period.

**Refuses Food in Jail.**

Miss Allie and Miss Grace, both well educated and widely traveled, refused food in the county jail Sunday and would not talk to officers. They lay quietly on their beds during most of the day and prevented themselves from being seen by hanging blankets over the windows and doors of their cell. Sheriff W. D. Pope, who arrested them on lunacy warrants taken out by their brother-in-law, M. H. Edwards, said they refused to eat.

## CRIPPLE IS SLAIN BY UNKNOWN MAN

### J. C. Bentley, of Doraville, Ga., Dies at Grady of Knife Wounds.

J. C. Bentley, of Doraville, about 40, died Sunday at Grady hospital, the victim of knife wounds inflicted late Saturday night by an unknown assailant.

A cripple, Bentley attempted to defend himself with his crutch in a death struggle which took place shortly before midnight Saturday in an alley off Condit street near the Southern Bell Telephone Company building, according to police reports.

His opponent proved too strong, however, and he was slashed about the face and abdomen. He died a few hours after he was admitted.

Bentley was identified Sunday night by a brother-in-law. The body had lain unknown at the hospital throughout the day, though a card found in

### Mrs. Diamond's Guard Is Killed in N. Y. Cafe

NEW YORK, July 30.—(AP)—James J. Dolan, 32, known as a body-guard of the late Mrs. Jack Legs Day, was shot and killed in a cafe tonight, a month after the gangster's widow was found dead in her apartment.

Dolan, who was questioned by police after Mrs. Diamond had been fatally shot, was in the back room of a cafe in Brooklyn when two men entered, talked to him a few minutes, and then fired.

The 32-year-old man ran to the street, where he collapsed with a bullet in his back. The assailants escaped.

## DEATH SENTENCE BELIEVED FACTOR IN BOY'S RETURN

### Scion of Albany Political Family Says He Wasn't Mistreated and Thinks He Was Kept Prisoner in New York Flat.

### MARKED CURRENCY GIVEN CRIMINALS

### Legislature Probably Will Hear Plea for Stricter Kidnaping Laws as It Meets Tonight.

By the Associated Press.  
Release of John J. O'Connell Jr., investigation of a fusillade of shots which Denver officers regard as the aftermath of another kidnaping and continued silence from the gang which seized Charles F. Urschel, were yesterday's developments in the recent series of kidnapings.

O'Connell, 24-year-old member of a politically powerful Albany (N. Y.) family, was returned unharmed before daybreak Sunday after \$40,000 in marked money had been paid for his release.

O'Connell was kidnapped early the morning of July 7 from in front of the Albany home of his father, John J. O'Connell.

In Denver, Col., officers were investigating gunfire Saturday night at the home of W. B. Ellsworth. His pretty brunette wife, Frances, supplied police with information which led to solution of the kidnaping several months ago of Charles Bowditch II. No one was injured by the bullets, apparently fired from a motor car.

Police immediately began a search for clues which they hoped would result in capture of Verne Sankey, suspected as the leader of a gang that abducted young Boettcher and released him March 1, only after his father paid \$60,000 ransom.

No word had been received from two machine gunners who took Urschel, millionaire oil man, from the front porch of his Oklahoma City home the night of July 22.

Possibility of another kidnaping was seen in the disappearance of David Kahane, once a wealthy Brooklyn real estate dealer, on a motor car trip from New York to Tampa, Fla. The car was found abandoned near Van Courlandt park, New York.

His brother, Paul, said, "I believe he is being held against his will," but said he had no money.

### O'CONNELL IS RELEASED UPON \$40,000 RANSOM

ALBANY, N. Y., July 30.—(AP)—John J. O'Connell Jr., 24-year-old scion of the politically powerful O'Connell family of Albany, was released to an intermediary early today by kidnapers upon payment of \$40,000 ransom.

O'Connell, who was kidnapped July 7, was uninjured but suffered from shock and nervous exhaustion.

An automobile carrying only young O'Connell and Louis Snyder, attorney, representative of Mary Strevel, intermediary, who effected the youth's release, climbed the steep mountain road to the O'Connell camp at 4 o'clock this morning, and delivered him to his father, John J. (Solly) O'Connell, and his uncle, Dan, another uncle, the county democratic chairman, arrived at the camp later.

### Death Sentence

After holding him more than three weeks in an attempt to collect \$250,000 ransom, the kidnapers apparently became alarmed, possibly by the death sentence meted out in Missouri to

## OIL MEN TO HEAR U. S. PLANS TODAY

### Failure of Operators To Agree Among Selves To Bring Federal Code.

WASHINGTON, July 30.—(AP)—Petroleum producers and refiners, who were unable to agree on a code of competition and saw the job taken over by the industrial administration, will hear tomorrow what degree of federal control the government will propose.

Hugh S. Johnson, the administrator, and his associates maintained silence today as they completed the code practice plan, but usually informed sources expected a measure of federal control and supervision over the flow of crude to market.

This was expected to be brought about through an administrative agency, either under Johnson or in the interior department under Secretary Ickes, which would seek to coordinate state and governmental programs.

Just how far the federal agency would go toward control was a moot point in official circles, but it was believed likely that rigid supervision would be in order to conserve oil resources and provide an orderly outflow. Some regulation of pipeline flow also was expected.

### Mystery Mobilization Assembles La. Troops

NEW ORLEANS, July 30.—(AP)—Two Louisiana national guard companies were under arms here tonight awaiting orders, and state administration leaders at a meeting in a hotel declined to say whether a militia had been called out. Colonel James E. Edmunds, commanding officer of the 108th cavalry, said the mobilization was ordered for emergency inspection, and Senator Huey P. Long, who has just returned from Washington, said he was informed the companies were called out for a kind of examination and inspection, and would be demobilized tonight or tomorrow.

Governor O. K. Allen, who came here this afternoon from Baton Rouge, declined to discuss the matter.

Senator Long said no formal statement had been issued for the mobilization, and that there was no cause for alarm.

## Business Patriotically Challenged, By Recovery Drive, Says Dr. Dodge

The magnetic power of idealism is abroad in the land again, Dr. D. W. Dodge said Sunday in an address urging co-operation with the president in the national recovery act, and declaring that the movement is patriotically challenged to sacrifice and not to be a slacker.

"It is sacrifice that will pay, and when the cumulative power of this movement gets under way, business will get back all and more than it has sacrificed for the welfare of its country," Dr. Dodge said.

"Administration of what the president is giving them," Dr. Dodge said. "It is action also that he wants out of the people. Emerson once said, 'Napoleon as a general was God, how rare men are.' There are 18,000,000 in Italy, and I have found but two. And the most admirable quality that Emerson found in Napoleon was his energy, his capacity for action. Action is one of the most contagious things in the world. It is as contagious as the speculation fever. Let a few persons start it, and it soon spreads to a large group."

"One of the very encouraging facts about the present campaign is the already appearing rivalry of progressive businessmen to get into the leadership in doing their part. As the movement

gets under way, it will gather momentum like an irresistible force."

Dr. Dodge predicted that the appeal to the pride of patriotism will likely succeed admirably. "The use of war-time symbolism will stir the souls of many," he said. "The names of the true soldiers in the army of recovery posted in the postoffice will enlist more and enforce the rest. Let us suppose, for example, that one or more of our banks were to co-operate with the movement, and that the others would not co-operate; how long would it take us to ask our banker, 'Why?' and to change our account if he did not fall into line. And the same thing would be true of the department stores, the drug stores, the restaurants, the barber shops, and so forth."

"Elimination of child labor through the industrial code is the making of history," Dr. Dodge said. He said that the old idea of economies, low wages as a condition of prosperity, has "gone to the how-wows," and that the iron law of low wages is found to be an economic failure, because the laborer is in the majority by an overwhelming number, and has to buy back what he has produced at the behest of the brains of the capitalist; but, in the name of heaven, how is he to buy it back if he does not earn enough with which to do the buying?"

Hours of any store or service operation may be reduced below the minimum of 52 hours required in the code if "the reduction is in accordance with a practice of seasonal reduction of hours and does not result in reduction of weekly pay of employees." This covers summer holidays and half holidays observed by many stores. The voluntary agreement imposes no limitation on the maximum hours of operation of a store or service, the regulations today explained.

The minimum wage for labor, 40 cents an hour, also must be paid for part-time work, while a "white collar" worker must receive the same rate for part-time work as he would receive for a full-time job.

The minimum wage provisions of the agreement do not apply to apprentices on contract on August 1, 1933, "but no one shall be considered an apprentice within the meaning of this interpretation who has previously completed an apprenticeship in the industry."

Over time emergency or repair work must be paid for at the rate of one and a third.

The president's re-employment agreement was written in language intended to be flexible to meet many varieties of conditions, the administration said. "As a result, interpretations will be required from time to time as uncertainties arise in the application of the agreement develop."

Previously the administration had defined the most difficult clauses of the agreement.

To clear up what employees are affected by Paragraph 2, which reads, "Accounting, clerical, banking, office, or sales employees (except outside salesmen) in any store, office, department, establishment or public utility, or on any automotive or horse-drawn passenger, express, delivery, or freight service, or in any other place or manner," the interpretation said the following are among the employees included: Barbers, beauty parlor operators, dish washers, drivers, delivery men, elevator operators, janitors, watchmen, porters, restaurant workers and filling station operators.

The administration ruled that no limitation was fixed on the maximum hours of store or service operation, and said that "hours worked in excess of the maximum by employees on emergency maintenance or repair work shall be paid at the rate of time and one-half."

Other interpretations were: "The hours of any store or service operation may be reduced below the minimum specified . . . if the reduction is in accordance with a practice of season reduction of hours and does not result in reduction of the weekly pay of employees."

"The minimum wage provisions of the agreement do not apply to apprentices if under contract with the employer on August 1, 1933, but no one shall be considered an apprentice within the meaning of this interpretation who has previously completed an apprenticeship in the industry."

"The minimum wage for a part-time worker in an employment described in paragraph 2 of the agreement is a wage such that if the employee worked at that wage for a full week of 40 hours he would receive the minimum weekly wage prescribed by the agreement."

"The minimum wage for a part-time worker in an employment described in paragraph 2 of the agreement is a wage such that if the employee worked at that wage for a full week of 40 hours he would receive the minimum weekly wage prescribed by the agreement."

## TEAGLE PROMISES F. D. R. BACKING

### Rockefeller May Take Part in Oil Administration Controversy.

WASHINGTON, July 30.—(AP)—Walter C. Teagle, president of the Standard Oil Company of New Jersey, said in a statement tonight that his organization "is anxious to do all in its power to carry out the policies of president Roosevelt which seek to lift us out of this depression."

His statement followed the recent resignation of James A. Moffett, senior vice president of the company, who announced that he was behind the Roosevelt recovery program and that his views apparently were "not in accord" with those of other officials of the company.

Teagle said the resignation of Moffett was "a matter of great regret," but, in the name of heaven, how is he to buy it back if he does not earn enough with which to do the buying?"

Some informed oil men previously had said there was a possibility that John D. Rockefeller, Jr., might waive his customary policy of non-interference with his company's line up the New Jersey company behind the administration's oil stabilization program.

A number of leaders in the oil business expected Rockefeller to take a hand because of the sudden resignation of Moffett, after a disagreement with Teagle, and W. S. Farish, chairman of the board, Moffett, favors price regulation and federal supervision of the petroleum industry.

Oil men speculated over what form of federal control might be offered tomorrow in the oil industry. A plan drawn up by Hugh S. Johnson, the industrial administrator, after they were unable to agree on a program to govern production and refining.

Usually informed sources understood that Johnson had veered today from his reported position of yesterday against licensing the industry, and was ready to do so, if necessary, to force adherence to the trade program, which they believe will call for governmental supervision over the flow of crude to market.

This was expected to be brought about through an administrative agency, either under Johnson or in the interior department under Secretary Ickes. Moffett was considered in line to head the agency in its efforts to co-ordinate supply with demand.

Oil authorities predicted that in allocation of production among the states, the so-called Pogue report, prepared by J. E. Pogue, New York and Washington engineer, last May, would form the basis of the division.

This report, which divides production on the basis of interstate movement of oil to market, estimated daily demand until December at 2,250,000 barrels and would permit Texas to supply 800,000, Oklahoma 425,000, California 400,000 and other states smaller amounts.

Oil leaders here, speculating on the possibility of Rockefeller taking a hand in the Moffett controversy, said privately they did not see how he could keep out of it, as the question involved national policy rather than a company quarrel.

Teagle forced Moffett's resignation by informing him that he either had to reject an appointment to the advisory committee aiding Johnson, of which Teagle is chairman, or get out.

Moffett's position as a confidante of President Roosevelt, and a strong supporter of the chief executive's recovery program, was understood by big figures in the oil industry to be in line with Rockefeller's own private view that the oil industry should go along with the president.

How Rockefeller might go about it was a question on which there was much conjecture, those in the industry holding the belief that any effort would be to reconcile Farish, Teagle and Moffett, and require the restoration of Moffett to the company's board and as vice president.

Several years ago, Rockefeller entered a quarrel in the Standard of Indiana, that led to the ousting of Robert W. Stewart as chairman of the board. He advocated the ousting of Stewart.

It was testified during the cotton textile code hearings that the fabric mills of the rubber companies now are working three shifts a day for seven days a week in order to supply the demand.

The police chief said Kelly told him of entering the doctor's apartment with another man, while two companions waited outside in an automobile. The only motive for entering the apartment, Hynes said Kelly told him, was to obtain money.

Dr. Stilla, who was 65 years of age, had been attacked and robbed in his New York apartment. His body, with a sheet twisted tightly about his throat, was found on the floor of his drawing room last Tuesday morning. New York authorities said a large sum of money was missing but Kelly said, according to Chief Hynes, he and a companion obtained only \$30.

The steel code, sponsored by the Iron and Steel Institute, about the oldest trade bodies, is looked upon by the administration as a model; but at the same time it is to produce a clash upon the labor question.

First Witness. Secretary Perkins made a swing through the steel mill district last week gathering data. She is to be one of the first witnesses at the hearing, marking the initial entrance of a cabinet officer directly into the proceedings.

Robert P. Lamont, president of the institute and a former secretary of commerce, will present the code, and Miss Perkins will testify immediately. Speaking for labor will be William Green, president of the American Federation of Labor; M. F. Tighe and Edward F. Miller, both of the Amalgamated Association of Iron, Steel and Tin Workers; Joseph A. Franklin, of the Boilermakers' Union; John P. Frey, head of the metal trades division of the Federation of Labor, and Charles Reed, of the Electrical Workers' Union. J. V. W. Rynders, nationally known engineer, will act as industrial adviser to the recovery administration. As consumers' representatives the following have been named: Richard H. Aishon, of the Association of Railway Executives; Gary Smith, vice president of the New York, New Haven & Hartford railroad; W. N. Kirkman, president of the National Association of Purchasing Agents; G. A. Renard, secretary-treasurer of the National Association of Purchasing Agents; Professor Frank A. Fetter, of Princeton University, and possibly Alfred Reeves, vice president and general manager of the National Automobile Chamber of Commerce.

Green also will serve as labor advisor to General Johnson.

### Man and Wife Hurt When Turtle Rebels

VENICE PARK, N. J., July 30.—(AP)—Costanzo Zucco, of Philadelphia, stopped his car along the White Horse pike today and picked up a turtle.

Zucco placed the reptile at his feet and resumed his journey back home from the shore. A few minutes later it started to climb up his pants leg. In his struggle to discourage the turtle, he lost control of his car, which crashed into a telephone pole.

Mr. and Mrs. Zucco received severe injuries.

WASHINGTON, July 30.—(AP)—Tomorrow will be pay day for 200,000 privates in President Roosevelt's forest conservation army.

And at the same time Uncle Sam will mail checks ranging from \$15 to \$25 to each of their 300,000 families back home.

The pay envelopes for the men themselves will contain \$5 and \$10 each. Robert Fechner, director, estimated more than a million persons would be benefited directly.

## PROSPECTS BRIGHT FOR WHEAT PACT

### Four-Power Agreement on Production Declared Virtually Assured.

LONDON, July 30.—(AP)—Negotiations for a wheat restriction scheme took a turn for the better over the week-end and prospects were brightened for an eventual agreement adapting production of the world's principal staple to demand.

If the big four nations—the United States, Canada, Australia and Argentina—had maintained the solidarity of the previous weeks at their final meeting last Thursday, it was understood in informed circles that an agreement virtually satisfactory to all, the exporters and the importers, might have been reached.

There was just a suggestion of a rift, it was explained, and an adjournment until August 21 was agreed upon.

Since that time there have been informal conversations which were understood to have consolidated the big four more strongly than ever. Canada and Argentina were said to both strongly favor a restriction of acreage, while Australia was declared to be willing to cut exports.

Frederick E. Murphy, of Minneapolis, one of the American delegates, plans to leave, probably Tuesday night, on a trip which will take him first to Berlin and then to Praha, Prague, and Paris with a view to lining up importers in preparation for resumption of the discussions.

Henry Morgenthau, of the United States delegation, sailed yesterday for the Berengaria for America, leaving the negotiations in Murphy's hands.

### REDUCTION DECISION MAY BE POSTPONED

WASHINGTON, July 30.—(AP)—With hope renewed for an international wheat agreement, farm administrators tonight considered extending the time before they determine the acreage reduction to be required in their \$135,000,000 program to limit domestic wheat production.

They will act early this week on a request to Secretary Wallace from London to withhold a decision on the reduction which United States farmers will agree to make in their wheat plantings in order to qualify for cash rewards under the voluntary domestic allotment plan. The maximum to be required, set previously, is 20 per cent.

Wallace said last Thursday the decision would be made and announced "within ten days." This was a few hours after the London wheat conference attended by representatives of the United States, Canada, Australia

## Underweight Children

### Need More Iron in Their Blood!

Children who are thin and pale and who lack appetite are usually suffering from a deficiency of iron. When the blood lacks iron it becomes thin and poor and fails to nourish. Then a child loses appetite and becomes still thinner and weaker—and easy prey to disease.

To build up your child, give him Grove's Tasteless Chill Tonic. It contains iron which makes for rich, red blood. It also contains tasteless quinine which tends to purify the blood. These two effects make it an exceptional medicine for young and old. A few days on Grove's Tasteless Chill Tonic will work wonders in your child. It will sharpen his appetite, improve his color and build up his pep and energy and increase his resistance to disease. Grove's Tasteless Chill Tonic is pleasant to take. Children like it and it's absolutely safe for them. Contains nothing harmful. All stores sell Grove's Tasteless Chill Tonic. Get a bottle today and see how your child will benefit from it.—(adv.)

## PAINFUL PILES

### Glorious Relief in 5 Minutes

Why go on suffering any longer with the agonizing torture of piles, when there is an amazing healer that will give you marvelous comfort in double-quick time? Just ask your druggist for a 35c box of PETERSON'S OINTMENT, apply a little right now and presto! in 5 minutes all soreness, pain, itching disappears—you can sit, stand, walk in comfort. Most painful piles often vanish in a few days. Money back if it fails. PETERSON'S is also in tubes with side nozzle (60c).—(adv.)

### A Valuable Addition To Your Library

In compliance with popular

demand, another batch of

"OUR PRESIDENTS

AT A GLANCE"

has been printed. This book,

printed on fine paper, 9x12

inches, contains a picture and

concise biography of each of the

United States presidents, includ-

ing Franklin D. Roosevelt.

It is valuable as a text book or

as a reference work, but even

more valuable as thrilling, enter-

taining, reading matter. It should

be in every home.

Mail 50 cents, or bring 45

cents for your copy to the cir-

culation department of The Con-

stitution.

## Mollison's Entertained At Summer White House

HYDE PARK, N. Y., July 30.—

(AP)—The flying navy from Great Britain—Captain and Mrs. James Mollison—were received today by President and Mrs. Roosevelt at the family home here.

Despite his intention to spend the first week-end at home alone, Mr. Roosevelt happily canceled plans to welcome the daring flying family from overseas for luncheon at Krum Elbow.

America's own woman flyer, the only woman to cross the Atlantic alone—Amelia Earhart Putnam—and her husband accompanied the Mollisons here from New York.

Standing on the spacious front porch, Mr. and Mrs. Roosevelt gave a hearty welcome to the visitors from overseas. Captain Mollison and Amy Johnson Mollison smiled at their reception.

The American and British fliers remained for luncheon and early in the afternoon departed by motor with a motorcycle police escort for New York.

Earlier in the day, Mr. and Mrs. Roosevelt motored to St. James Episcopal church to worship again with their neighbors and friends.

and Argentina, recessed until August 21, without reaching a definite production or export curtailment agreement.

He indicated then that he had no hope for an early agreement.

The cable request, however, informed Wallace that prospects for an agreement have improved since the conference recessed. Administrators refused to discuss to what extent they are willing to change their plans, but it was said they are likely to wait in any event until after August 10, before making their decision. At that time the monthly crop report with the newest estimate of production will be issued.

JACKSON WOMEN FACE TRIAL TODAY

Continued From First Page.

shouted out several times and preached a sermon upon one occasion.

Mrs. Jarrell was resting well at the home of another daughter, Dr. Mary Edwards, Sunday and appeared little the worse for her experience.

She was weak from lack of food and was nervous because of the excitement it was said.

The Jarrell home, which is situated within one block of the Butts county courthouse, was under heavy guard Sunday as the result of rumors of \$40,000 in cash being hidden somewhere in the residence. No search was made Sunday, but the building will be ransacked thoroughly Monday by Sheriff Pope and city officers together with lawyers representing Mrs. Jarrell and Mrs. Fuqua. Tear-gas fumes, which routed the Misses Jarrell Saturday afternoon, prevented the hunt being started Saturday night, the sheriff said.

Threatened Mother's Life.

Mrs. Fuqua told Sheriff Pope Sunday that for 10 days her sisters held Mrs. Jarrell under the point of a pistol. They threatened their mother's life if she called out or said anything at all, the older sister asserted. Mrs. Jarrell had been under the care of a physician, but the daughters would allow no one to enter the home.

The windows were nailed down and all the doors were barred and barricaded. When Pope and other officers attempted to enter after they had been notified by Mrs. Fuqua, the maiden sisters warned the sheriff to "say his prayers," for it would be his last chance if he opened the door.

Chief T. O. Sturdivant and Atlanta detectives Saturday forced Miss Allie and Miss Grace to surrender when they threw tear gas bombs through a broken window.

Mrs. Fuqua Escapes on Ruse.

Mrs. Fuqua, summoned from her nearby country home by a letter saying the mother was ill, escaped Wednesday during a rain. Pleading that her mother was ill and needed extra covering, she asked her sisters to allow her to bring a quilt which hung on the porch. With gun in hand, one of the sisters opened the door a little and let Mrs. Fuqua through. The elder sister ran out into the rain and around the house. She went to Dr. Edwards' home and together they went to the sheriff.

Dr. J. A. Jarrell, father of Miss Allie and Miss Grace, was for many years a physician and businessman in Butts county. He died two months ago. The doctor owned vast plantations and nearly all the large business houses in Jackson. He was reported to hold large amounts in bonds and securities.

Butts county officers asserted that the trouble which led to the barricading of the Jarrell home developed as the result of the will of Dr. Jarrell, which left his entire fortune to his widow. Mrs. Jarrell had recently been granted court papers which made her the sole executor of the estate.

Fear that they would not get a share caused Miss Allie and Miss Grace to attempt to force their mother to turn over to them a portion of the money, county officers said.

The usual ten-day notice of trial for lunacy was waived by members of the Jarrell family and the two sisters will face the court Monday morning.

his pockets bore the name H. G. Bentley, of 705 Piedmont avenue. Detective working on the case said residents at that address asserted they knew no one named Bentley. The card was issued by the city relief center, and officials there helped in tracing relatives.

Bentley had several brothers and sisters and his mother resides in Anniston, Ala., it was said. Funeral arrangements are to be announced by Sam Greenberg & Company.

Two persons told police they saw shadowy figures locked together in the alley, and heard the sounds of a desperate combat. They hurried to the scene but before they reached the spot, one of the men broke way and ran down the street. The other fell to the ground unconscious.

The crutch which Bentley had used to defend himself, was bloody and broken, and police said he had evidently struck his assailant over the head with it. He had a game leg and could walk only with the aid of the crutch.

Bentley never regained consciousness after being taken to the hospital.

## Bounty on Snakes Says Ohio Man Is Best Bet for Public Service

By HARRY FERGUSON.

WASHINGTON, July 30.—(AP)—Now that the word has gone around the country that the federal government is spending \$3,300,000,000 on the public works program, the citizens have put aside their personal problems to pitch in and help.

Imbued with the spirit that caused their forefathers to desert the plow and carry a musket to Concord bridge, these citizens, men and women, are deluging the public works administration with ideas. Every mail brings more ideas—or rather, brings another sample of the same idea.

Most of these Minute Men of '33 seem to think it would be just dandy if the government would use some of the \$3,300,000,000 to seed their front lawns, put a sand-box in the back yard for the kiddies, paint the garage or help build a fence around Aunt Maggie's hen-house to keep the chickens from straying all over the neighborhood.

The letters usually emphasize that the expense involved would be comparatively trivial—a mere drop in the \$3,300,000,000 bucket—and would be, oh, so beneficial to the community.

Occasionally, however, there is a variation on that theme. There was, for instance, a gentleman (name withheld) who thought he could best serve the interests of the U. S. A. and the public works administration by going to work for them. It was not a routine application for a job however. He felt that an alliance between himself and the government would be irresistible, so he offered to pay the public works to work for them. It was not a routine application for a job however. He felt that an alliance between himself and the government would be irresistible, so he offered to pay the public works to work for them. It was not a routine application for a job however. He felt that an alliance between himself and the government would be irresistible, so he offered to pay the public works to work for them.

Another applicant for a position indicated he was perfectly willing to die at a desk for Uncle Sam, but if possible he would like a slight dig before being summoned to the firing line. The trouble, it seems, is that he has a slight head cold—nothing serious, he said, but things like that frequently turn into pneumonia and influenza. Latest reports said he still was convalescing.

First prize, however, goes to a citizen out in Ohio. His letter said he had made an intensive survey of the unemployment situation and had found what he called "the one way out."

The "one way out" it appears is to put a bounty on snakes. His code of fair competition proposes \$1 bounty on a rattlesnake with a sliding scale ranging down to two cents for an ordinary garter snake.

"It would give employment," he wrote, "to 10,000 people and would perform a most useful service."

L. LELAND, RUBBER MAN, DIES IN MASS., AT 69

MANCHESTER, Mass., July 30.—(AP)—Lester Leland, nationally known rubber manufacturer and financier, died at his summer estate in West Manchester tonight at the age of 69.

Among the many organizations in which he held official position were the United States Rubber Company, the First National Bank of Boston, the American Dunlop Tire Company, the Hartford Rubber Works Company, the Indianapolis Rubber Company and other units of the industry.

He was also a director of the United Timber Company, of New York, The Atlantic Coast Lumber Corp., of Georgetown, S. C., and of the First National Bank of Boston.

Leland traced his ancestry to William the Conqueror and was a descendant of Henry Leland, a Puritan who reached America in 1636.

GEORGE E. WHITAKER, SOMERVILLE, Mass., July 30.—(AP)—George E. Whitaker, 70, publisher of Zion's Herald since 1898, died at his summer home on Lake Winnepesaukee in New Hampshire last night. Zion's Herald is the official organ of the Methodist Episcopal church.

MISS JENNIE E. HOWARD, BUENOS AIRES, July 30.—(AP)—Miss Jennie E. Howard, 89, the last among a group of American educators who came here from the United States before the turn of the century to engage in teacher training work at the request of the government, died here yesterday.

## Elephant Shakes Auto To Quiet Merry-makers

LIMA, Peru, July 30.—(AP)—Santiago, the only elephant in the old Lima zoo, has his own idea how to discipline noisy merry-makers.

Yesterday, local newspapers report, he became annoyed with the antics of several persons seated in an automobile parked near his grounds, pushed his trunk under the top of the machine, lifted one end from the ground and gave car and occupants a stiff shaking.

Then he placed the car gently back on the ground, whereupon the panicky driver and his passengers departed amidst much laughter from the onlookers.

Mutual Bank Deposits Near All-Time Record

NEW YORK, July 30.—(AP)—The all-time record for the number of depositors in mutual savings banks in the United States was reached on July 1 when 13,303,533 depositors held accounts in the nation's mutual institutions.

This number, said an announcement today of the National Association of Mutual Savings Banks, was within 100,000 of peak figures and marked an increase during the first six months of the year of 35,087.

Philip A. Benson, president of the association, said he considered the increase of depositors and swelling of the surplus accounts of mutual institutions to a new high figure of \$1,171,772,818, as a "heartening sign of the times."

The gain for the first six months in number of depositors was accompanied by an increase in surplus accounts of \$29,690,720, providing 12.2 per cent surplus on the deposits.

MARITIME STATION IS OPENED IN FRANCE

CHEMBERG, France, July 30.—(AP)—Cherbourg's new \$2,500,000 maritime station was officially inaugurated today by President Albert Lebrun.

The station, the largest in Europe, is part of a port development project

which included the deepening of Cherbourg harbor at a cost of approximately \$8,000,000 and the establishment of a basin between two deep-water piers to facilitate the docking of large trans-Atlantic passenger ships.

## GRAIN LOSS LAID TO U.S. BY ILL. FARM LEADER

AGRICULTURE DEPARTMENT Bulletin Cause of Price Declines, Kennedy Says.

KANKAKEE, Ill., July 30.—(AP)—E. E. Kennedy, secretary of the Farmers' Educational and Co-operative Union of America, today made public an open letter addressed to Secretary of Agriculture Wallace in which Kennedy charges recent market declines in grains were a result of a statement issued by Wallace's department.

Kennedy referred to a release issued by the federal department of agriculture on July 12 in which it was said that the cost of farm production in Iowa and Illinois is 34 cents a bushel for corn, 30 cents a bushel for oats and 80 cents a bushel for wheat. The government statement, Kennedy said, declared farmers are now receiving more than the cost of farm production for both corn and oats.

"Immediately following within a few days of this release," Kennedy's letter said, "the grain markets of the country went crashing down so sharply that they were ordered closed. The actual cash revenue loss to American farmers on crops and storage values exceeded \$900,000,000."

"It is significant that the declines were practically the measure of disparity between the prevailing prices paid to farmers before the government's release and the estimates of cost of production as published by the department. The effect of the department's press release was to undermine and destroy the judgment and confidence of buyers of corn, wheat and oats."

70th Birthday of Henry Ford Marked by No Celebration

DETROIT, July 30.—(AP)—Henry Ford was 70 years old today. The automobile manufacturer apparently saw no reason in that fact for any special observance of the day and had it not happened to fall on Sunday he would have marked the occasion as he has most of his other birthdays—by putting in his usual day of work in his own private "shop-study."

The quiet that spreads over the engineering laboratory of his plant at Dearborn on Sunday was matched by the stillness that marks the great acres of "Fairlane," across the federal highway between Detroit and the west. Ford spent the day quietly at "Fairlane," with members of his family. Only a few close friends came to the Ford home; many others sent their felicitations by wire.

Calles Takes Lead In Mexican Recovery

MEXICO, D. F., July 30.—(AP)—Plutarco Elias Calles, former president, today assumed leadership in a Mexican six-year recovery program in a speech in which he declared that Mexico did not want economic warfare.

He warned, however, that if such an eventuality occurred Mexico would co-operate to the fullest extent with other nations of the American continent.

The occasion was the return of the former president to Mexico after a four-month sojourn in Lower California.

He criticized what he characterized as the failure of the world economic conference in London.

"The disinterested, apostolic voice of the great American President Roosevelt to save the conference was in vain," he declared. "Mexico's best efforts and willingness to co-operate were likewise in vain."

Taxi Operator Killed.

COOKEVILLE, Tenn., July 30.—(AP)—Virgil Campbell, 33, operator of a taxi company, was killed from ambush today in a hilly sector about three miles southwest of here. Campbell was driving his automobile along a side road when struck by a hail of bullets.

New Treatment Perfected For Boils and Sores

Prescription, known as No-Lance for boils, sores, felines, carbuncles, ulcers and skin abrasions quickly banishes pain, ripens the sore spot, discharges pus, kills germs and heals. See at Jacobs or other good drug stores.—(adv.)

## IT TAKES HEALTHY NERVES TO FLY AROUND THE WORLD ALONE!

● ABOVE—FOR THE FIRST TIME IN HISTORY a man has flown around the world alone! Sleepless...hungry...ignoring the perils of fog and ice...storms and forced landings...Wiley Post won the admiration of the whole world with his courage, his skill, and his marvelous physical endurance in flying around the world in 7 days, 18 hours, 49½ minutes. Here he is shown as he landed at Floyd Bennett Field.

● LEFT—RESTED AND SMILING after his daring flight, Wiley Post enjoys a Camel. "Smoking Camels as I have for so long," says Post, "I never worry about healthy nerves—and I'm a constant smoker, too."

● LEFT—"I CAN'T SPEAK as a record-breaking flyer. I'm a young married woman, and my home and club work keep me going every minute. Add to that the fact that I am naturally inclined to be the nervous type. I didn't start with Camels, but later switched to them because I found they are milder and have a delightful flavor. I smoke only Camels now because I have discovered that they allow me to smoke all I want—without upsetting my nerves."

## Steady Smokers turn to Camels

In an exclusive interview WILEY POST says: "Circling the globe alone in the Winnie Mae was the toughest ordeal I've ever been through! A round-the-world flyer has to be in shape to stand the extremes of physical exhaustion. He has to be ready for any weather, any emergency. His job calls for nerves in perfect condition. Smoking Camels as I have for so long, I never worry about healthy nerves—and I'm a constant smoker, too. Everybody knows that Camels are made from more expensive tobaccos, and you can certainly tell it in the mildness and good taste of Camels, and the fact that Camels never jangle the nerves!"

Thousands of smokers have switched to Camels and found that they are better for steady smoking. Your nerves and your taste will confirm this. Begin today with Camels. Know that you are smoking a milder cigarette...and that steady smoking does not interfere with healthy nerves!

## IT IS MORE FUN TO KNOW

Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand. Leaf tobaccos for cigarettes can be bought from 5¢ a pound to \$1.00...but Camel pays the millions more that insure your enjoyment.

# Camel's Costlier Tobaccos

NEVER GET ON YOUR NERVES NEVER TIRE YOUR TASTE

# Great Britain's Reign of Davis Cup Play

(Copyright, 1933, by The Constitution and the North American Newspaper Alliance, Inc.)  
The victory of the British Isles—which in this case means England—in the last Davis cup test is one of the outstanding features of the year in sport.

For 27 seven years Australia, the United States and France have practically taken charge of the leading tennis trophy.

Yet through most of this period England has been the leading tennis country of the world.

Certainly in the last 10 years or more Wimbledon has dominated the game. It has been the big show. It has attracted the greatest talent and the greatest crowds. It has attracted the greatest general interest.

With France holding the cup there was a great three-cornered race among England, the United States and Australia.

England's leading entries were Fred Perry and Bunny Austin. The United States had Vines and Allison, with Van Ryn and Lott for the doubles.

Australia had Crawford and McGrath.

Crawford of Australia was the outstanding star of the entire collection, if you include Wimbledon.

But it was the young English side that beat Australia, the United States and France in turn—possibly the hardest assignment ever given any Davis cup team for 30 years.

So here is where all the credit lies. It might be said also that England hasn't taken the Davis cup ownership nearly as seriously as the United States and France.

That is all the more credit to the English side. It is much more of a victory for amateur sport, as amateur sport ought to be, so rarely is.

Testing a Champion.

One of the high spots in the coming Wightman cup matches at Forest Hills this week will be the testing of a champion who hasn't been tested often in the last few years.

The champion is Mrs. Helen Wills Moody and the official tester is Miss Dorothy Round, of England, the first opponent to lift a set from Mrs. Moody's iron grip in many seasons.

Mrs. Moody must be ranked as one of the outstanding champions of all time. Few others have outlasted all rivalry by such long and extended margins. She has stood alone on top of the Mt. Everest of women's tennis.

Any rival good enough to take a set from the California star gathered national and international interest.

No one expects Miss Round to defeat Mrs. Moody, but at least the crowd would get a greater thrill in seeing the champion extended.

She has been able to leave most of her famous repertory at home, and still win. Now she will have to bring it all along, since she is not the type of competitor to take any careless chances.

A tennis championship to Mrs. Moody, or an international test, is no part of a picnic. She is entirely too smart to take anything for granted at any time. She will never beat herself.

Tester and Wrecker.

When it comes to worth as a combined tester and wrecker of championship hopes, the main award must go to Johnny Risko, the Cleveland rubber man.

As a starter, Risko came near checking Tunney's dream before Tunney met Dempsey.

Tunney won the 12-round battle, but he had a hard fight, and Risko was in there swinging lustily at the finish.

Not knowing how good Risko was, many began to mutter about Tunney's chance in a Dempsey show.

Later on, when Tunney was on top, Tex Rickard had practically named Jack Sharkey as his leading challenger.

But Sharkey gave one elimination to Risko and Risko seemed to be the leading challenger. At that time Sharkey was confident that Risko couldn't win a round. Rickard felt almost as strongly in the matter.

But when the war opened Risko jumped out to win seven of the first eight rounds and then romped away with the decision by a half-dozen kilometers.

He almost spoiled Tom Heeney's chance. Also Paulino's outlook.

In fact, he was scrambling up Rickard's programs month after month.

Tex figured that Risko had cost him close to a half-million dollars by outmaneuvering a prospective champion after another, including Paul Benbow, who was then at his peak.

A short while Mickey Walker decided on a comeback campaign. He ran into Johnny Risko and bounced back out of the picture.

Then Tommy Loughran gets going at something like his old speed. He is on his way in a hurry—until he hits Risko. And Tommy's dream of another heavyweight march is practically over.

This makes about eight years in which the famous rubber man has been jabbing a long pin into the balloons of ambitious fighters.

Being of the "can-take-it" breed, he was supposed to be walking on his heels by now.

But he keeps on walking forward when the battle is on, whether upon heels or toes.

The rubber boy is still able to bounce. No one yet has been able to remove his remarkable elasticity, or discourage him from taking his wind-up.

## HORSE DOPING HARSH, LIGHT

## IS INVESTIGATED BATTLE TONIGHT

By Charles Dunkley, Associated Press Sports Writer.

CHICAGO, July 30.—(AP)—A federal grand jury investigation of alleged "doping" of race horses will be started tomorrow.

Subpoenas were ready to be served on twenty-four trainers, owners, veterinarians as a result of the arrest of seven men, four of them negroes, at Arlington park, Saturday on a charge of violation of the Harrison narcotic act.

Ralph Oiler, federal agent in charge of the Chicago narcotic division, was unable to name the persons who were to be called before the grand jury, but it was reported that Ivan Parke, a star jockey ten years ago, who had been denied a license in either train or ride for the last two years, Dr. Nelson Edward Southard, a veterinarian of Louisville, Ky., and Charles Mitchell, a stable owner, would be among the first to be called.

This trio, among the seven arrested in the raid at Arlington park, obtained their release from custody on bonds of \$2,000 each. Four negroes, however, remained in jail. All prisoners were charged with violation of the Harrison anti-narcotic act, namely, the possession of drugs. They pleaded not guilty before United States Commissioner Edwin K. Walker. Their cases were set for August 7.

H. J. Auslinger, of Washington, federal narcotic commissioner, revealed that similar investigations were being made under federal authority at seven other major race tracks, but that evidence in these cases had not been made public. Auslinger said he was willing to cooperate with all jockey clubs to stamp out of the alleged doping practice, and would station agents, requested, at every race track where there is even the faintest suspicion of such practices.

Auslinger also said that the evidence already gathered by the government agents, would be available to every responsible turf organization. He said that the federal government is limited, insofar as prosecutions are concerned, to charges of violations of the narcotic law, whereas the turf authorities can act independently against the individuals, where the government cannot. He explained that the government has no authority to punish an individual for administering stimulants to an animal.

VETERAN ILL.

ST. PETERSBURG, Fla., July 29.—(AP)—George Washington Brown, 80, opponent of Corporal William Jubb, 92, in a boxing match for the "whiskerweight" championship here last winter, is seriously ill in a local hospital. Brown and Jubb were members of the Three-Quarter Century Club baseball team.

## CRACKERS SPLIT TRAILERS; LEAVE CELLAR

Butcher Drops Great Duel in First, 1-0; Aube Wins Nightcap, 6 to 1.

LITTLE ROCK, July 30.—The Crackers' offensive operations were pretty puny today but good enough to win one game of the two that closed the series with Atlanta. The main reason for victory in the first game was the sterling pitching of Cantrell, who shut the Crackers out, 1 to 0. Hornadus Aube was almost as good in the second game as Cantrell had been. He pitched Little Rock, 6 to 1.

The first game just about belonged to Cantrell and Bill Akers. The shortstop made another of his special throws from center field to head off an error and he scored the only tally of the game. Cantrell was the fellow who drove him in. Together they got half of their club's hits.

BUTCHER PITCHES.

Max Butcher was the opposing hurler in the opener and he had an edge on Cantrell in the matter of hits. He allowed only six while the local right-hander was yielding eight. However, about 50 per cent of the Atlanta blows were from the Crackers.

The Crackers got their hits in groups of two in the first, second, fourth and fifth innings. They were helped in the last four rounds by Akers singled to center after Tapson had flied out in the fifth. Wied flied to Susko and Cantrell came up. A wild pitch put Akers on second and Cantrell singled to center. The home runs for a single that brought in the winning run. Bray forced the pitcher for the third out.

Butcher staved the guests off for two innings in the second game and had a 1-0 lead when the first started. When it ended he was in arrears, 3 to 1. All of his trouble came after two men were out. Phillips grounded to Tapson and Aube struck out. Then Barron and Rollings singled. Chatham walked and Bonowitz cleared the decks with a double that dropped at the foot of the coverboard. Asa Wall, the newest player on the Atlanta roster, went out on a hopper to Tapson.

BARNABE CHASED.

There was no scoring in the fourth and fifth, but the Crackers out after Barnabe again in the sixth and chased him out of the game. Another two-baser by Bonowitz, a sacrifice, Bray's error, Sharpe's single and a fly to Brown by Phillips produced the winning run. Kola Sharpe relieved Barnabe after Sharpe's hit.

The Crackers scored on Sharpe in the seventh with a pair of infield hits, a passed ball and an outfield fly. The Little Rock run in the second inning was the result of a walk, a safe on an infield out and an outfield fly. Wright did the scoring and Akers batted him in.

# Yankees Bounce Back in Race With Senators

## RUSS AT LAST HELPS EIGHT SCATTERED HITS

Three Costly Washington Errors Aid Cause of New York.

By F. G. Vosburgh.  
Associated Press Staff Writer.  
WASHINGTON, July 30.—(AP)—The New York Yankees bounced back into the fight for the American League lead today by stopping the Senators, 7 to 2, behind the southpaw pitcher of Russ Van Atta, lone New York pitcher to win from Washington with any consistency so far.

Of the four games the Yankees have won from the league-leading Senators in 13 starts this year, two tanned and hard-working Penn State college products have accounted for three of them. Herb Pennock, the first of them, pitched a complete game, Van Atta kept the eight hits scattered, granting no more than one an inning.

**ERRORS HURT.**  
Three costly Washington errors helped the Yanks break their rivals' winning streak and shorten their lead to two games after having dropped the first two battles of this big four-game series.

The Yankee bats, too, came to life and piled up eleven hits off four Washington pitchers.

It was a blistering day of the type that wears down pitchers, and Manager Joe Cronin replaced Whitehill with Russell in the sixth. Seven hits had been collected off the southpaw but the score was 2 to 2. Burke and Al Thomas followed Russell, with little success.

During his first game since a hard-hit ball from a Cleveland bat injured his hurling arm, Van Atta beat the heat as well as the Senators.

His shirt soaked through, and he heaved to another. Once he sprawled full length in covering first but came up smiling. For the first time he appeared back high in the air with his bare hand and tossed him out.

One of the biggest Washington crowds of the year, 20,000, had little to cheer about.

Wild throws by Goslin and Thomas led in three runs and Schulte's error in the seventh opened the way for another. Hits by Dickey and Lazzeri and a freak hit by Gehrig that went over Bluege's head as he charged in the eighth, broke the tie.

Combs started the Yankees' scoring in the third with a triple. Crockett had singled.

One Washington bright spot was a homer by Joe Kube in the second with none on. Another was Myer's triple in the fifth which led to the tying run.

Babe Ruth retired in the eighth as a result of the heat and a slightly injured foot.

**NEW YORK SENATORS 2.**  
NEW YORK, N. Y. (AP)—The Yankees won their eighth game in a row today, 7 to 2, over the Washington Senators.

**WASHINGTON SENATORS 7.**  
WASHINGTON, D. C. (AP)—The Washington Senators won their eighth game in a row today, 7 to 2, over the New York Yankees.

**ATLANTA BRAVES 4.**  
ATLANTA, Ga. (AP)—The Atlanta Braves won their eighth game in a row today, 4 to 1, over the New York Yankees.

**ST. LOUIS CARDINALS 3.**  
ST. LOUIS, Mo. (AP)—The St. Louis Cardinals won their eighth game in a row today, 3 to 1, over the New York Yankees.

**CHICAGO WHITE SOX 2.**  
CHICAGO, Ill. (AP)—The Chicago White Sox won their eighth game in a row today, 2 to 1, over the New York Yankees.

**PHILADELPHIA PHILLIES 1.**  
PHILADELPHIA, Pa. (AP)—The Philadelphia Phillies won their eighth game in a row today, 1 to 0, over the New York Yankees.

## Reviewing the Shows

### 'The Patsy,' Comedy and Romance, Is Offering of Peruchi Players

"The Patsy," one of the funniest and best written romantic comedies that ever drew crowds to a New York theater, is the play to be given this week by the Peruchi Players at the Erlanger theater, the laughter-provoking Atlanta theatergoers.

This play, written by Barry Connors, ran for a solid year when first produced at the Booth theater in New York. It was something entirely new in the comedy line and set a new style in playwriting which has since been widely copied. It has been a surefire hit in every city where shown.

The play is the story of a younger sister in a modern American family, a sort of Cinderella who is badly "put upon" by her mother and an

older sister. How the younger girl sets out to win the man she loves while he, unconscious of her plan, helps her by "lessons in love making," provide a hilarious yet tenderly appealing situation.

The play gives a splendid opportunity to Mary Ann Dentler, Gordon Peters, Mrs. Peruchi, Klock Ryder, Mildred Peters and other members of the Peruchi company.

Tonight as always on Mondays, ladies will be admitted free when accompanied by escort with reserved seat ticket. There will be the usual nightly performances all week and matinee performances on Wednesday and Saturday. Walter Sheets orchestra and musicians will be in the pit, with the night performances starting at 8:15 and matinees at 2:15.

### 'Baby Face' Opens Run at Paramount Theater

"Baby Face," this week's Paramount offering, is another addition to the already impressively long list of Hollywood treatises on the commercial advantages of carefully considered sin.

This time the talented Barbara Stanwyck, who has made a reputation for the tried old movie principle that the wages of protracted misconduct for a beautiful young woman are, success, jobs, better jobs, better apartments, jewels and finally marriage with a handsome young banker.

Since a corollary of this fatal-of-woman stuff is that all the men with whom she comes in contact are first-class boobies, her male companion in misdoing suffers as she prospers. Her path to riches is marked by lost jobs, a murder, a suicide, blasted reputations and honest bank failure and enough disgrace for everyone involved. Needless to say, the unpleasantness neither injures her or cramps her style, for this is the movie credo.

Just to take a little of the sting out, you are given the impression, at the very end, that she really does love her latest victim and has given up her hard-core million or so to help him and they are both starting out on a fine, clean, new life. Which doesn't change our idea that she should have been taken to the top of the skyscraper where she got in most of her dirty work and dropped over the parapet just after she had played her first sucker. It might have cut the picture down a bit but it would have been easier on the eyes of our poor males who continually are being shown by Hollywood that we have absolutely no sense when it comes to pretty face and figure. It may be true, but why rub it in?

Miss Stanwyck deserves better roles than this one. She has real ability and we hope she doesn't lose it all waiting for a good part. George Brent, Donald Cook and the other of her victims all act completely stupid, which seems to be the proper idea. A Bobby Jones golf lesson, Ruth Etting sound short, Betty Boop cartoon and the omnipresent newscast complete the screen program. Bob Hoess, at the organ, offers some of his favorites in a medley of "Rose Haws."

—LEWIS HAWKINS.

### 'Midnight Mary' Shows This Week at the Grand

"Midnight Mary" with Loretta Young, Franchot Tone, etc., is the feature now showing at Loew's Grand theater. A Laurel and Hardy comedy, "The Music Box," Meretone News and other subjects are also on the program. It was reviewed in The Constitution of Saturday.

### ZANE GREY AND MIX IN MOVIE PARTNERSHIP

KANSAS CITY, July 30.—(AP)—Tom Mix, cowboy film actor, said today he and Zane Grey, author, were planning to form a partnership for pictures.

Mix, playing this week at a local theatre, said production will start early in November.

The actor said Grey's fund of western stories will help the production company well supplied with film material. Mix will star in most of the pictures.

### Russell Will Push Move for Jute Levy

WASHINGTON, July 30.—(AP)—Senator Richard B. Russell Jr., of Georgia, arrived here tonight to urge the department of agriculture to impose a compensating tax on jute under the farm act.

He explained that the legislation provided for a tax on articles which compete with products on which the levy already has been imposed. The processing tax on cotton already has been ordered and jute is a competing product.

Russell said he would be here three or four days attending to this and some "minor business." He did not go into details.

### State Deaths And Funerals

SARAH WATERS CHARLTON. SAVANNAH, Ga., July 30.—This afternoon at 4 o'clock, funeral services were held for Miss Sarah Waters Charlton, a very well known Savannahian who died Saturday. Miss Charlton was the sister of the late Dr. Thomas J. Charlton, who was for a number of years a practicing physician in Savannah. She was employed in the public schools. She was supervisor of physical education and was regarded as most competent in that line. She is survived by three sisters, Mrs. George H. Weaver, of Macon, the funeral took place from the home of Mrs. Harman with whom she lived.

MRS. J. T. CRAWFORD. BARNESVILLE, Ga., July 30.—Funeral services for Mrs. J. T. Crawford, who died at the Strickland Memorial hospital in Griffin Saturday morning, following an operation, were held at the First Methodist church in Barnesville Sunday afternoon at 2 o'clock. Rev. A. J. Middlebrooks, pastor of the church, officiated.

Mrs. Crawford had been ill for several weeks and was carried to the hospital this week for an operation. She was before married Miss Della Bell, wife of a Macon county, but had lived in Barnesville ten years. She is survived by her husband, two sons, A. F. Crawford, of Gainesville, Ga., and E. T. Crawford, of Winder, and one daughter, Mrs. Anna Bell Street, Barnesville.

MADISON—"King Kong," with Fay Wray.

PALACE—"The Kiss Before the Mirror," with Nancy Carroll.

PONCE DE LEON—"The Past of Mary Holden," with Jean Arthur.

WEST END—"Dangerously Yours," with Warner Baxter.

## FOUR VETERAN GROUPS JOIN FORCES IN MACON

### Leaders School Is Held To Aid Battle Disability Cases.

MACON, Ga., July 30.—(AP)—Members of four veterans' organizations joined forces here today under direction of the state veterans' service office for a school of instruction in securing veterans' benefits for battle cases under the nation's new economy program.

Officials of the state service office said it was the first such school in the United States and seven other states' service offices have asked for proceedings to guide similar meetings. The school was held for the benefit of the Veterans of Foreign Wars, American Legion, United Spanish War Veterans and Disabled American Veterans, and for all field workers of the American Red Cross in Georgia. More than 800 veterans were present and the attendance included representatives from Alabama, South Carolina and Florida.

Sheehan, national rehabilitation officer of the V. F. W., of Washington, D. C., made the principal address of the day, outlining the new status of appeals; the type of evidence required to prove claims under the new regulations; discussing evidence required for service connecting tuberculosis, nervous or constitutional diseases and the status of Spanish-American War Veterans.

A. L. Henson, director of the state veterans' service office, announced that the school was held through budget authorization of Governor Eugene Talmadge to assist veterans' organizations throughout the state. The announcement brought cheers.

Arthur Cheatham, Macon, assistant director of the state service office, acted as general chairman of the school. The school opened at 10 o'clock and continued until late afternoon with a brief recess.

Mr. Henson opened the meeting with a discussion of the purpose of the state veterans' service office, explaining its business is to assist veterans in securing the benefits to which they are entitled, and to prevent unjust discrimination against them through measures of the new regulations.

General Stocke, commander of the United Spanish War Veterans, spoke in the interest of his organization; John T. McMullin, Red Cross liaison representative, spoke on service to veterans; and J. H. Henson, representative of the National Red Cross, John M. Slaton Jr., manager of the veterans' administration, Atlanta, gave a technical discussion and interpretation of the new regulations.

Mr. Sheehan discussed at length new requirements for securing or retaining service connection for the type of cases heretofore granted service connection by statutory or regulatory presumption other than certain chronic diseases. Last he discussed removal of Spanish War Veterans from the list of the Boxer rebellion and Philippine insurrection from pension lists, and their requirements to show service connection.

After a luncheon, disabled Spanish War veterans who are more than 55 years old and in need will receive \$15 monthly, he said, and widows and children's pensions commensurate with Mr. Sheehan's talk, Robert E. Stowers, regional adjudication officer of the veterans' administration, Atlanta, spoke on technical subjects regarding certain types of awards. Dr. H. C. Hardgrave, chief medical officer of the veterans' administration, Atlanta, spoke on eligibility for medical care, and Owen, regional attorney of the veterans' administration, Atlanta, spoke on insurance aspects of veterans' problems.

Julius Setze, of the veterans' administration, Atlanta, spoke on removal of burial expenses and miscellaneous provisions.

Sidney Camp, Newnan, newly elected commander of the Georgia department of the American Legion, and P. Lubetkin, Columbus, commander of the Georgia department, Veterans of Foreign Wars, spoke also.

Among those attending the school were Quincy Melton, Griffin, national committeeman of the American Legion; Miss Dorothy Blake, Savannah, district representative of the Red Cross, and personal representatives of Representative Emmett Owen, Robert Ramspeck and Senators Walter George and Richard B. Russell Jr.

Mr. Cheatham announced after the meeting that he plans to arrange a similar school for negro veterans of the state within the next two weeks in some place to be selected by the negroes.

### EMPLOYEE OF CITY COMMITS SUICIDE

Continued From First Page.

Klassett told police. Another neighbor also reported to police that Anderson spoke pleasantly to her a few minutes before shooting himself.

A coroner's inquest will be held today. Paul Donohue, county coroner, announced Sunday.

Anderson is survived by his wife and a brother, Patrolman W. J. Anderson, of the Atlanta police department.

Funeral services are to be conducted at 2:30 o'clock Tuesday afternoon at the Capitol View Methodist church, the Rev. Jack Penn officiating. Burial is to take place in Greenwood cemetery. The J. Austin Dillon Company is in charge.

### Partridges Are Reared By Cedartown Bantam

CEDARTOWN, Ga., July 30.—A bantam hen owned by H. S. Knight, a farmer living near here, is mothering a couple of partridges which she hatched and raised. There were originally eight young partridges in the brood, but six were trampled to death by the other chickens.

### WEATHER FORECAST FOR COTTON STATES

Georgia: Generally fair Monday and Tuesday except scattered afternoon thundershowers; not much change in temperature.

North and South Carolina: Generally fair Monday and Tuesday except scattered afternoon thundershowers in extreme west portion.

Florida: Showers Monday and probably Tuesday.

Tennessee: Generally fair Monday and Tuesday except scattered afternoon thundershowers; not much change in temperature.

Louisiana: Partly cloudy, local thundershowers in northwest portion Monday; Tuesday unsettled, probably occasional rains.

Mississippi: Partly cloudy Monday; Tuesday occasional rains.

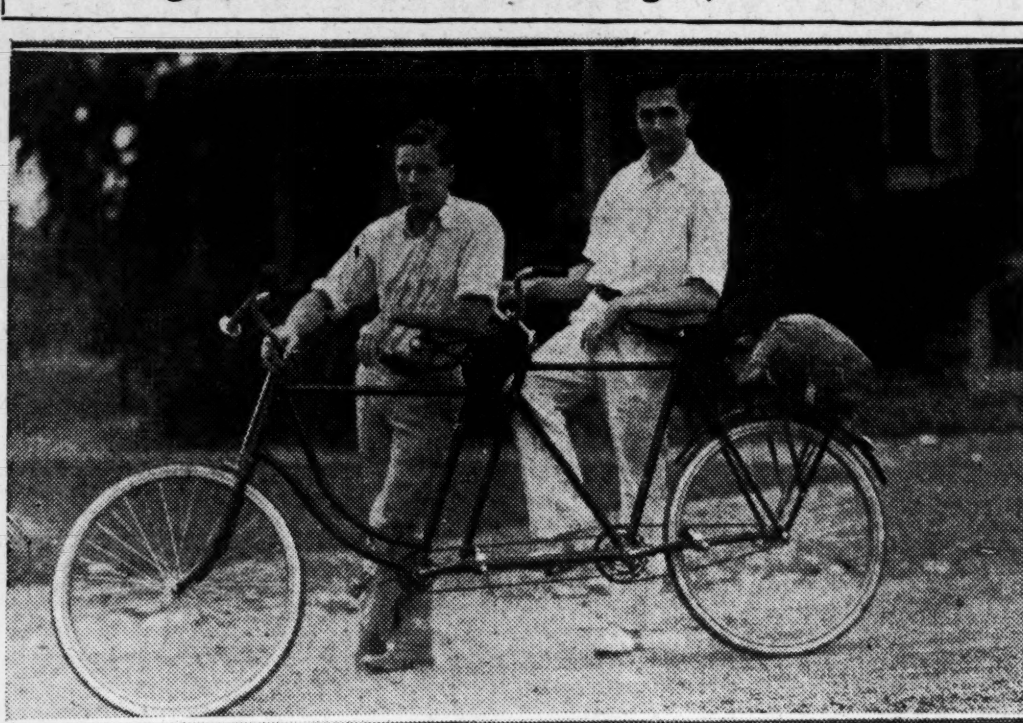

Alabama: Local thundershowers Monday; Tuesday rain.

Extreme North Florida: Rain Monday and Tuesday.

Arkansas: Partly cloudy Monday and Tuesday.

Oklahoma and Texas: Scattered thundershowers Monday and Tuesday.

## Georgian and Chum Pedaling 1,200 Miles

Donald D. Johnson, of Montclair, N. J., Princeton track captain (left), and his roommate, Judson H. Corrigan, of LaGrange, Ga., with the 37-year-old tandem-bicycle on which they started from Princeton this morning to travel to Corrigan's home, a trip of 1,200 miles. Both graduated from Princeton University last June. They will devote three weeks to the excursion.

### Balbo Delays Flight Because of Weather

SHOAL HARBOR, Newfoundland, July 30.—(UP)—Strong headwinds over the north Atlantic tonight caused General Italo Balbo, commanding the 24 Italian seaplanes, again to postpone departure on the 1,500-mile flight to Ireland.

General Balbo said he intended to take no chances on this last long over-water phase of their mass-flight from Orbetello airport, Italy, to Chicago's World Fair and return. He felt the flight had been conducted so far with a minimum of mishaps, other than the one fatal accident at Amsterdam on the way over, and hoped to return to Italy with an almost perfect record.

Departure at dawn was a possibility, the Italian air minister admitted, but it all depended on the improvement in weather conditions.

### 5 NATIONAL TITLES ATTRACT EXPERTS TO BRIDGE TOURNEY

ASBURY PARK, N. J., July 30.—(AP)—The American Bridge League will begin its fourth annual summer tournament here tomorrow. Five national titles will be a stake.

Most of the American masters of bridge will compete. Entries include the leading players of the New York and Philadelphia metropolitan areas, from other parts of the east and from cities in the middle west and south.

The national women's championship will be played tomorrow and Tuesday afternoons and the mixed team-of-four event will be held in the evenings of the same days.

An elimination round on Wednesday will mark the opening of the national open team-of-four championship for the city of Asbury Park trophy, a bronze statuette modeled by Mrs. Dorothy Sims. The teams, reduced to 16, will begin knockout matches Thursday. The finals will be held Sunday afternoon.

Among the favorites to win will be a team composed of Oswald Jacoby and David Burnstine, teammates on the famous "Four Horsemen," with Will Price, of Jackson, and C. W. Roberts, of Indian Springs, were badly hurt and were taken to the hospital. The negro was also injured. Both Hattaway and Smith were well known in Jackson.

A third team with strong backing for the championship will include Waldemar Von Zedwitz, Edward

### Lady Nicotine's Thriving Industry Busies Georgia Tobacco Belt

VALDOSTA, Ga., July 30.—(AP)—Heavy-laden trucks and wagons rumbling over highways, countless farmers and dapper buyers marking time around bulging warehouses, glaring furnace fires in a thousand curing barns—that was the picture of busy times in south Georgia's tobacco belt tonight.

Auctions start at 42 warehouses in 16 cities Tuesday and everybody connected in any way with Lady Nicotine's thriving industry was busy with arrangements for marketing the crop.

Forecasts for a 60,000,000-pound harvest worth \$9,000,000 or more spurred along the activity. Some experts predicted the yield would even amount to 75,000,000 pounds.

All seemed agreed on one thing—the prevailing price would average in the neighborhood of 15 cents a pound.

Typical of the reports was one from Nashville, saying the Berrien county crop is the best since 1929. Nashville's three warehouses are expecting to sell about 7,000,000 pounds during the season.

The town of Hazlehurst will observe the beginning of the marketing season. Warehouse men there estimate the seasonal sales at 3,000,000 pounds. Rapid-fire selling is in the offing at Adel by virtue of two sets of buyers sent there by manufacturers and exporters. Practice of the dual buying system means farmers will see

### Second Crash Victim Dies at Jackson

JACKSON, Ga., July 30.—George Smith, Florvita cotton buyer, who was injured Saturday afternoon in an automobile accident in Jackson which killed I. H. Hattaway, Poperton Mills official, and injured three others, died Saturday night at the Griffin hospital.

Smith and Hattaway received fatal injuries when the car in which they were riding collided with a machine driven by William Beasley, Jackson negro, on the outskirts of the city.

Will Price, of Jackson, and C. W. Roberts, of Indian Springs, were badly hurt and were taken to the hospital. The negro was also injured. Both Hattaway and Smith were well known in Jackson.

Hymes Jr., Sam Fry and Louis Watson.

### Cotton Is Destroyed On 4 of 'Lord's Acres'

ATHENS, Ga., July 30.—(AP)—Bold Spring church, in Franklin county, has joined the list of religious congregations plowing under the "Lord's acres" for the sake of cotton control.

Members of the church had joined hands to cultivate nine acres of cotton to finish the church and its work. But when the cotton acreage control program was launched by the government they signed contracts to destroy four acres of the crop.

In return, the church will receive \$44 in cash from farm adjustment administrators, along with an option on one and four-fifths bales which can be bought for about 6 cents a pound and sold at the prevailing price of about 11 cents.

### BROWN ASKS RELEASE OF U. S. ROAD FUNDS

AUGUSTA, Ga., July 30.—(AP)—Congressman-elect Paul Brown, of the tenth Georgia district, said today he had wired Attorney General Cummings from his home in Elberton urging that Georgia's \$10,000,000 allotment of federal road funds be released without further delay.

Officials in Washington have held up the money pending a decision on as reconstituted under Governor Talbot's status of the state highway board's military rule.

"It is my understanding these funds were set aside for use on public highways as one of the president's re-employment measures with as little delay as possible," Brown said.

"Georgia has a legal highway department to handle this money. Her roads are in a bad condition, and there is a need for the money," said Mr. Brown.

He asked the attorney general to render an opinion on the situation as quickly as possible.

A similar telegram was sent from Atlanta last night by Senator Walter P. George.

### Six Persons Burned In Boat Explosion

ANNAPOLIS, Md., July 30.—(AP)—Six persons were burned and injured, two seriously, as a speed boat exploded in the South river near here early tonight.

They were brought to the emergency hospital here where five were kept for treatment for burns.

Broviac Sasada, 39, of Briarcliff, received burns on the face, hands and chest as a gasoline tank exploded while he was trying to find the cause of a sputtering in the motor.

John Crain, 21, of South Haven, who was blown unconscious, from the boat by the blast, and Miss Elizabeth Bassett, 15, of Waterbury, who could not swim, were rescued by an unidentified fisherman.

The condition of Crain and Sasada were said to be serious.

Gordon Moreland, 22, of South Haven, and Miss Veva Tisdell, 17, of Millersville, also were under treatment for burns at the hospital. Ernest Roseauale, 20, of South Haven, was treated but not admitted at the hospital.

vannah, Ga., for burial. Besides the parents, Mr. and Mrs. Joseph H. Cherry, with whom he made his home, he leaves a sister, Mrs. Elton Calver, of Savannah, and two brothers, John, of Tampa, and Joseph Jr., of Atlanta.

### ATLANTAN'S BROTHER ENDS LIFE IN TAMPA

TAMPA, Fla., July 30.—(AP)—William D. Cherry, 22, an aviation student at the municipal airport, died at the Tampa hospital this morning at 6 o'clock from what police said was a self-inflicted bullet wound. He told friends after he shot himself, the officers said, in a house near the airport that he was taking of living. The bullet pierced his lung.

The body was sent tonight to Savannah, Ga., for burial.

## LOUISE STEWART HEADS 4-H CLUB

### Mrs. H. Laing Made New Head of Demonstration Councils in Athens Meet

ATHENS, Ga., July 30.—Mrs. Herbert Laing, American, was elected president for 1933-34 of the Georgia Federation of Home Demonstration Councils in the closing session of the week's meeting completed yesterday at the University of Georgia, and Miss Louise Stewart, Decatur, was chosen president of the 4-H Club of Georgia during the meeting held concurrently in Athens.

Other officers of the Federation of Home Demonstration Councils are Mrs. Howard Tate, Ga., first vice president; Mrs. N. C. Young, St. Simons, second vice president; Mrs. Charles M. Masbourn, Atlanta, R. F. D., secretary, and Mrs. Wiley Williams, Pelham, treasurer.

The departmental chairmen for 1933-34 are: Home improvement, Mrs. Hugh McGulkin, Carrollton; clothing, Mrs. M. C. Hosen, Decatur; nutrition, Mrs. D. E. Moore, Gray; marketing, Mrs. Zack Edmondson, Eatonton; 4-Club, Mrs. Will Glass, Ben Hill; publicity, Miss Lois Garmon, Thaddeus county development.

Mrs. H. G. Wiley, Forsyth.

Miss Beatrice Bannsen, Americus, was elected 4-H Club conference chairman.

Chancellor Philip Weltner addressed the entire group on the responsibility of farm women and girls in developing rural Georgia. "The will to be and the will to do, which characterizes you girls and women, will help to change our rural civilization," said Mr. Weltner.

Other speakers on Friday's program were Dr. H. P. Stuckey, dean of Agricultural College; Miss Mary E. Creswell, of the Georgia State Federation of Women's Clubs; Miss Lois P. Dowdle, editor of home department, Southern Ruralist.

## Miss Hubner Weds Mr. Walker In Ceremony on Oglethorpe Campus

The chimes in Lupton hall played during the ceremony at the marriage of Miss Mary Eleanor Hubner and Henry W. Walker, which was solemnized Sunday evening at 6 o'clock on the campus of Oglethorpe University. The ceremony was performed by Dr. Witherspoon Dodge, a member of the faculty of the university.

Miss Rose Hubner, the bride's sister, was maid of honor, and was gown in orange chiffon, and carried a bouquet of purple orchids and yellow roses. Mr. Hall acted as best man for Mr. Walker.

The bride was given in marriage by her brother, Robert W. Hubner, and she was radiantly lovely in a gown of white point d'esprit, veiling white satin and the point d'esprit veil was fastened to her hair with orange blossoms.

## NANCY PAGE

It's Smart To Visit the Exposition at Chicago  
BY FLORENCE LA GANKE.

Like most of the people in America the Page family were going to the Century of Progress at Chicago. Nancy was not taking either Peter Page Jr. nor baby Susan. She knew that crowded streets with exhibits over their heads both in the car and in the streets and through the buildings of the fair.

Dorothy had been there and had reported the tired mothers who kept dragging worn-out children on the streets and through the buildings of the fair.

"But, Nancy, what would you do if you felt you should see the fair and had no one to take care of the children?" "Well, in that case I'd take Peter and then I'd park him each day over on the Enchanted Isle where they have trained women to take care of small children. They give them supervised play, tell them stories, see that they eat the right foods. That is one thing this fair has done that was left undone in 1893. We have learned how to take care of children with a better understanding of their needs."

"Lucy is taking Betty and I am taking Joan but I intend to park her in the Enchanted Isle most of the time, too. And then I have equipped myself with certain requisites so I believe I shall be carefree, walk-

ing about in bodily comfort. I have comfortable shoes with heavy soles, not paper thin ones. I have a pair of dark garters. I am taking along plenty of stockings and some foot powder. "I have chosen a plain undervest bag that is large but not bulky. The crowds surge around one and I know I'll feel safer if I am taking along a dangle handbag. Oh, I think we are going to have a great time and see sights that even we moderns have never dreamed of. And think what figures of 40 years ago will see for contrast."

(Copyright, 1933, for The Constitution.)

## Friendly Counsel

BY CAROLINE CHATFIELD.

Dear Miss Chatfield: I married a man who is a cripple. He is confined to a wheel chair and is helpless to get in or out of it. I married him with my eyes open, knowing that to be his wife I had to make up my mind to be a nurse to an invalid. But I loved him enough to face this fact. For several months he seemed to be supremely happy. Then he began to be morbid, to make frequent references to the injustice he had done me in marrying me. Every time we were alone he would begin to harp on the same old subject. At first I laughed at him, thinking that would be the best way to divert him. But as time went on he got worse until finally there was no such thing as the pleasant and jolly conversation that we used to enjoy so much. Now his morbid state of mind has begun to react on me and I am sick of it all. I don't know I love him and that I could be perfectly happy if he would only be reasonable and accept my word for it that I love him and can be happy spending my life with him. Is there anything I can do to put him in a better frame of mind?

Answer: Dear lady, yours is a problem that has served many a novelist as a theme about which to build a book. This very fact indicates that the situation in which you find yourself is significant and deeply difficult of solution. I wonder if it is not well-nigh impossible for a sorely troubled man to think normally about any problem that concerns him so closely as this one does. The tragedy that crippled his body rendered his spirit exquisitely sensitive and his brain warped. Agonizing over his own plight he agonizes over yours and is unable to believe that you have dealt frankly with him when you have protested that your happiness is complete in being with him and in being able to contribute to his comfort.

We are all quick to take color from the people we live with. Just as gaiety is infectious so is the continual expression of morbidity infectious. We live in the house with a gay and cheerful person and we become almost gay ourselves, even though it's against our natures. Likewise, we live with a brooding, unhappy person and we absorb the atmosphere they exude until

the glorious thing about love is that it can and will make its voice heard in a ringing violin carrying the melodic line above the dissonance of the entire orchestra. Love is never more glorious than when it is unselfish and sacrificial, when it leaps the barriers of physical disability and becomes a gleaming, glowing spiritual emotion.

## Jephtha Wyatt Feted On Birthday Date At Supper - Dance

Mr. and Mrs. J. C. Wyatt entertained at a supper-dance Saturday evening at their summer home at Fairview, Ga., in compliment to their son, Jephtha Wyatt. The event celebrated the twenty-first birthday anniversary of the honor guest and a cake, richly embossed in flowers, ornamented with 21 pink candles, decorated the supper table. The hosts were assisted in entertaining by their son and daughter, Mr. and Mrs. W. J. Cox.

Invited were Misses Josephine Lawler, Mary Ellen Bragg, Virginia Blackwell, Mary Luke, Virginia Luke, and L. J. Luke, Land Oliver, Harold Williams, Thomas Williams, Robert Youngblood, Walter Coppedge and Joe Brocade.

Mrs. Wheeler's Party.

Theptonian class of Gordon Street Baptist church was entertained on Wednesday by Mrs. J. G. Wheeler, teacher of the class, at her home in Cascade Heights. Among those present were: Misses Maxine Johns, Edith Harden, Lora Warren, Ethelyn Hill, Ruth Hammock, Blanche Cole, Evelyn Myers, Mildred Aycock, Kathryn McCrory, Billie Coleman, H. H. Segars, Virginia Smythe, Louise Hale, Marguerite Burgess and Mrs. Wheeler.

Culbertson on Contract

The Defense Slips.

BY ELY CULBERTSON.

World's Champion Player and Greatest Card Analyst.

In the recent American Whist League national championships held at Hanover, N. H., Louis H. Watson was the only player to successfully fulfill a game contract on the hand below.

Mr. Watson, as the play developed, saw his one possible hope of making the contract and accordingly tried for it. The fact that more astute opponents might have found the winning defense does not detract in any way from the soundness of Mr. Watson's line of play.

The bidding: (Figures after bids refer to numbered explanatory paragraphs.)

South West North East

Pass Pass 1♥ Pass

2♥ Pass 3♥(1) Pass

4♥(2) Pass Pass Pass

1—North might conceivably be justified in bidding four hearts at this point. However, in view of the fact that his partner passed originally and the game was being scored on a match-point basis, he elected to give South a chance to pass below game.

2—South, having more than a minimum two-heart bid, must contract for game after his partner's invitation for him to do so.

East has no desirable Opening lead. For some particular reason this particular player chose to open the trump rather than his fourth-best diamond. Mr. Watson won the trick with the King in his own hand, drew the other trump and immediately led his single diamond. West won the trick and immediately returned his other high diamond, which Mr. Watson trumped.

The next lead was a low spade. East quite properly stayed off at this trick, and it was won with the Queen by Dumpty. Declarer now led a trump to return to his own hand and led out his last spade, East winning with the Ace and immediately exiting with another spade. On this trick Mr. Watson discarded a club from his own hand. The hand was now stripped of both spades and diamonds.

A club was now led from Dumpty and won with the Ace and a low club returned. At this point it should not have taken much thinking for East to see that to play the Knave was a losing play. Declarer could not very well have held the Knave of clubs or he would at some stage of the proceedings have taken a simple club finesse. Therefore, with the Queen more or less definitely marked in partner's hand, East could not lose by going up with his King and immediately cashing the Knave for the setting trick.

It is a simple matter at this point to count the Declarer for having originally held four clubs and for having one more left. Therefore East should have known that his partner would be forced to overtake the Knave with the Queen and lead another suit which would give Declarer the necessary ruff and discard needed to fulfill the contract.

East, however, was completely asleep at the switch, and West was helpless. He won the trick with the Queen and there was no lead available to him which would save the day. His Diamond return was trumped in Dumpty and the last losing club discarded from Mr. Watson's hand.

TOMORROW'S HAND.

If South is playing a contract of three notrump and West's Opening lead is the fourth-best heart, what is the best play for Declarer to realize the maximum number of tricks?

## Willingham-Tift Gets Contract for Millwork, Finish on Georgia Hall

EDIFICE TO STAND  
AS STATE TRIBUTE  
TO A NOBLE CAUSE

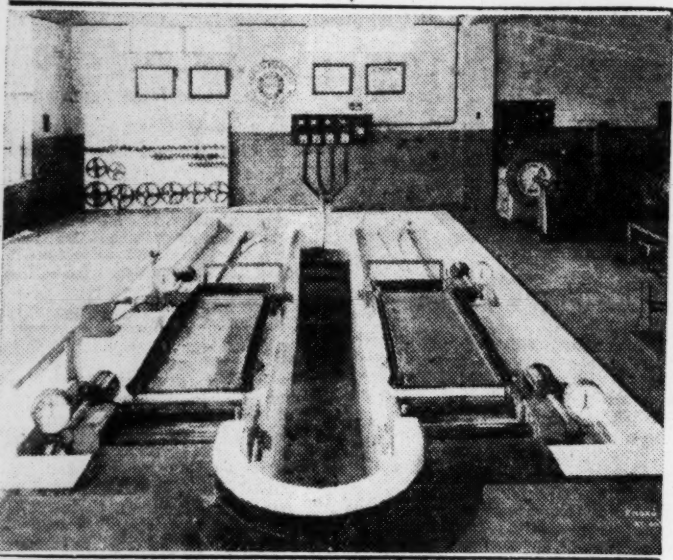

Atlanta Concern To Play  
Notable Part in Building  
of Great Monument  
of Generosity, Appreciation.

Georgia Hall, a beautiful and magnificent gift of the Georgia people to President Roosevelt and the Warm Springs Foundation, will be truly a Georgia product, and will stand as a monument of generosity and appreciation, dedicated to a noble cause.

The architectural work on Georgia Hall was executed by Henry J. Toombs, of Gugler & Toombs, architects, Warm Springs. Mr. Toombs is a descendant of a noted Georgia family and is a Georgian by birth. The general contract was awarded to Watson-Cook Company, West Point, Ga., general contractors, prominent in the construction business throughout the south, and Willingham-Tift Lumber Company is supplying all the millwork, finishing, glass and glazing. Thus, from its very conception to its completion, Georgians will be responsible for the entire execution of this splendid building and gift to President Roosevelt.

The Willingham-Tift Lumber Company has greatly broadened its scope of operation, and now not only handles quality millwork, cabinet work and

### Wagner Electric Provides Complete Brake Service

Especially equipped to render complete brake service to owners and operators of automobiles, buses, trucks and vans, the Wagner Electric Corporation, 14 Alexander street, stands in the front among concerns of its kind not only in Atlanta but in the entire nation.

Specialized service by the Wagner Electric Corporation is made possible by its combination of skilled experts and varied equipment of the most modern type, which insures thorough and attention to the tiniest as well as the largest detail in brake manufacture and conditioning.

Shown above is the huge Cowdrey brake tester, one of the two of the largest of its kind in the south—a scientific device designed for adjusting and testing brakes on all types of automobiles. Electrically operated, it may be automatically controlled either from the wall or pit.

The Cowdrey tester tests each wheel separately by a pressure gauge adjustment through the latest and most accurate arrangement, and is capable of testing dual wheels on the largest types of vans and buses as well as those of pleasure cars of the smallest wheelbase.

The Barnes and Fisher brake shoe grinder—another modern machine at the local Wagner plant—is designed for the reconditioning and restoration of worn automobile brake drums, and is adjustable for the grinding of brake lining for oversized drums.

For the riveting of brake lining and shoes, the Wagner plant is equipped with a time-saving machine which will insert 150 rivets a minute accurately.

In addition to these services, the Wagner Electric Corporation manufactures and distributes Wagner Quality Products, a line which includes electric fans, motors and transformers. It also manufactures the Lockheed hydraulic brake, Lockheed

ONLY SLIGHT GAIN  
NOTED BY COTTON  
ON WEEK'S TRADE

Wheat and Stock  
Reversal Wipes Out Most  
of Advance Made by Staple  
on Buying Demand.

NEW ORLEANS, July 30.—(AP)—The heavy reaction of the preceding week slowed down business activity in the market here to a considerable extent, but there were periods of active trading featured by good trade buying and also by rather heavy buying of contracts by government agencies.

This government buying was said to be for the purpose of replacing cotton released to owners as a result of the liquidation of seed loans and some traders also believed that the government was strengthening its holdings to meet the needs of the allotment feature of the farm relief act.

As a result of this demand and the gradual improvement in wheat and stocks, prices rallied considerably during the week. The week ended with a recovery of 121 points from the low level of the preceding Saturday. Late in the week a reversal in wheat and stocks and declines in sterling caused a reaction of practically 50 points from the top and the week closed with a net gain of about 30 points or \$1.50 a bale.

The market was supported in the first part of the week by the unfavorable weather in the cotton belt. While there were some complaints still of dry conditions in portions of the western belt, there was entirely too much rain in the central belt, with torrential downpours in north and central Louisiana, eastern Arkansas, portions of Mississippi and west Tennessee.

The following shows the high, low and closing sales in the New Orleans futures market during the past week compared with a year ago:

	High	Low	Close	Last
Oct. ....	11.01	10.36	10.60	5.97
Dec. ....	11.23	10.57	10.81	6.12
Jan. ....	11.24	10.63	10.88	6.19
Mar. ....	11.47	10.84	11.04	6.34
May ....	11.60	11.04	11.19	6.49

fluid and brake lining, and carries a complete stock of brake parts. It also serves as national distributor for the American Brake Block Corporation—a distinct service to garage men, jobbers and automobile dealers.

### Washington Seminary Adequately Equipped For Thorough College Preparatory Work

These young women, constituting the graduating class of 1933 at Washington Seminary, successfully completed their pre-college training in the spring and are in readiness for entrance to institutions of higher learning.

Fifty-six years of service in training young women of the south for institutions of higher learning have won for Washington Seminary a coveted place in the realm of preparatory education. It stands today in the front ranks of fully accredited preparatory schools for girls, its work recognized and accepted by any college.

Washington Seminary, for the last two decades located at 1640 Peachtree road, was founded by the Misses Washington in 1877 as a private school, the first quarters being situated on East Cain street.

From this small beginning it grew and expanded until larger quarters were required. Coming into the hands of Mrs. Emily Stuart, it was moved first to the corner of Walton and Fairlie streets, and later to North avenue, near Peachtree. Still later it was moved to its present location.

Mrs. Stuart sold the seminary to Mrs. Alice Chandler, formerly of Bowling Green, Ky., who operated it until her death. It then came into the hands of Miss Emma B. and Dr. J. D. Scott, who serve as co-principals.

The charm and refinement of the atmosphere of Washington Seminary are widely known and recognized, as is illustrated by the fact its graduates have come from practically every state in the Union.

Its enrollment of approximately 350, however, is made up chiefly of daughters of Atlanta's foremost families. The seminary provides a boarding department, wherein every comfort is found and where an environment as nearly like the home prevails.

Washington Seminary takes special pride in the fact that, while hundreds of its graduates in years past have married and taken up home-making as a career, scores of others have found wide recognition in the world of business, arts and professions. Of these, in one line alone—newspaper work—may be cited Mrs. John T. Toler and Miss Elizabeth Thompson, of The Constitution staff, and Misses Ida Sadler and Yolande Gwin, who serve other Atlanta papers.

The seminary is widely known for the thoroughness of its training in languages, music, domestic arts, domestic science and commercial art.

An outstanding and distinct feature of the splendidly equipped Washington Seminary plant is the reference library of approximately 3,000 volumes, given by the alumni and housed in Memorial Hall, dedicated to Mrs. Alice Chandler and Mrs. Bessie Chandler Matthews.

The seminary is widely known for the thoroughness of its training in languages, music, domestic arts, domestic science and commercial art.

BUSINESS MOVES  
STEADILY AHEAD;  
NO LULL IN SIGHT

Usual Seasonal Decline  
Even in Isolated Dis-  
tricts Reported To Be  
Negligible.

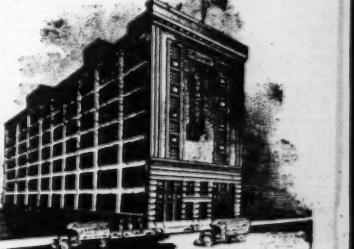

By HIRAM HERTELL.  
NEW YORK, July 30.—(AP)—Apparently immune to recent disturbances in speculative markets, business during the past week revealed a general indifference to the thought of mid-summer recession.

Only in a few isolated districts has there been a lull in retail demand, and even there the usual decline has been practically negligible. Consumers continue to take merchandise as additional gains are made in employment and wage scales under the national industrial recovery program.

With the application of industrial codes, however, a recession in production is anticipated to bring it more closely in line with consumer purchasing power. A cross-section of business opinion indicates that the administration will receive wholehearted co-operation in its frontal attack on adverse economic conditions which have so ruthlessly affected the welfare of millions of persons who want work.

Retail sales generally are ahead of the total for July last year, and the peak seems to be as far distant as it was two months ago, according to Dun & Bradstreet. Wholesale buying has been resumed with all its previous fervor, after some hesitancy in the preceding week. Cotton goods orders, however, are beginning to lag, largely because of price uncertainties.

### THE TRUE VALUE OF EDUCATION

"Statistics that have been gathered from many institutions all go to show that college training has a financial value, but the chief value of a college education is the improvement in the man himself. It gives him a higher appreciation of the best things in the world. It fits him for one of the great professions or for leadership in business, or in public life. It enables him to utilize what talent he has in doing good for others, as well as in benefiting himself."

## THE CONSTITUTION

CLASSIFIED  
ADVERTISING  
Information

## CLOSING HOURS

Want Ads are accepted up to 9 p. m. on publication day. The closing hour for the Sunday edition is 8:30 p. m. Saturday.

## CLASSIFIED RATES

Daily and Sunday rates per line for consecutive insertions:  
One line ..... 20 cents  
Three lines ..... 57 cents  
Seven lines ..... 1.00  
Minimum, 3 lines (12 words).  
In estimating space of an ad figure six average words to a line.  
Ads ordered for three or seven days and stopped prior to expiration will only be charged for the number of times the ad appeared and adjustments made at the rate of 10 cents per line per day.  
Errors in advertisements should be reported immediately. The Constitution will not be responsible for more than one incorrect insertion.

All want ads are restricted to their proper classification and The Constitution reserves the right to refuse or reject any advertisement.

Ads ordered by telephone are accepted from 9 a. m. to 5 p. m. on publication day. A memorandum charge only in return for the advertiser's order is expected to remit promptly.

## TARZAN THE APE MAN No. 109

Lowering bushes which they had been holding up as a camouflage, the pink-necked natives sprang from ambush, and covered the party with their little arrows which they had drawn to their heads. Little to recover from the surprise attack, Holt's voice rang out.

Very clear and certain came his command: "Stay where you are." He looked around to see if the others were obeying. "No one move from anyone." "We can't stand here and get taken," protested Parker. "If we resist, we'll be butchered," Holt whispered back.

Then he called sharply to Riano, while the men made a circle of defense. "Hand over your gun, Riano." As the head-man did so, Parker's gun went up. "Parker, if we do nothing," cautioned Holt, "there's a chance of getting away." Reluctantly, Parker gave up his gun.

The little leader of the pin-head savages then advanced and pointed off in the direction in which he wished them to go. He led the way. "Ready, Jean," asked Holt, calmly. Taking her father's arm, the girl answered bravely: "Yes, John—quite ready."

## Cross Sections of Life In Gate City of South

Building owners and managers of the southern and southwestern states will meet at the Piedmont hotel Wednesday and Thursday to adopt a code under the national recovery act.

Members of the Bible class of the United Methodist church will meet at 7:30 o'clock tonight in the parish house, 609 West Peachtree street. Mrs. L. L. McCall is leader of the class.

Revival services, conducted by the Rev. Jesse Murphy Hendley, pastor of the Colonial Hills Baptist church, with the assistance of his father, the Rev. A. C. Hendley, will begin tonight at the church.

Bishop H. J. Mikell will leave today for the clergy conference to be held at the University of the South, Sewanee, Tenn., from Tuesday through August 11.

Declarator chapter, No. 148, Order of the Eastern Star, will meet at 8 o'clock Tuesday night at the Masonic temple in Decatur. Mrs. Adelle G. Roberts is worthy matron and George P. McIntire is worthy patron.

Gleaners' class of the Third Baptist church will sponsor a musical at 7:45 o'clock Tuesday night at the church. A free-will offering will be taken to repair a classroom.

Speech Arts' Club of the Atlanta School of Oratory and Expression will meet at 6 o'clock Tuesday night in the Wesley Memorial building. Wesley Club, teacher of psychology and salesmanship, will preside.

Councilman John M. Owen, chairman of the preliminary committee of council, has announced a meeting for 7:30 o'clock Thursday night at the city hall for a public hearing on the

between the hands on one side and a policeman and a night watchman on the other side resulted in two bystanders being hit by bullets. James Victor, another suspect, is in Grady hospital under guard, suffering from a fractured thigh bone.

Newfound Gap road in Smoky Mountain National park has been paved and is open for traffic, according to Mrs. A. M. Fry, of the Frymont Inn, Bryson City, N. C. Gravel is being placed on the road from Cherokee to Smoketown, but it is in better condition than ever before, she reported.

Teams from Kirkwood and Collins' Memorial young people's leagues will debate at 8 o'clock tonight in the city hall of the northwest section and the southeast section of the contest sponsored by the Methodist young people's union. The winning team will debate East Point in the finals at 8 o'clock at College Park Methodist church.

E. Smythe Gambrell, prominent Atlanta attorney, Sunday left for Washington to attend the conference of the national motor carriers' code committee. Mr. Gambrell is legal adviser to the committee, being recognized as an authority on motor transportation law. His pioneer legal work in the industry has included representation of the motor carriers in the development of laws under which they operate.

Crowd of 7,500, one of the season's largest for a Sunday attraction, witnessed the kiddie revue presented by Miss Jessie Reese. There were many different attractions and the show was well received. A surprise show will be presented next Sunday, officials of the Southeastern Fair Association announced.

Mass meeting of barbers and barber shop owners will be held at 8 o'clock tonight at the Henry Grady hotel, it was announced Sunday. The barbers' code of the national recovery act will be discussed. Those attending are requested to bring their employment agreements and compliance certificates. Barbers in Fulton and DeKalb counties are urged to attend.

Burglars early Sunday morning visited the home of H. S. Thomas, 646 Simmons street, and R. C. Purcell, 593 Simmons street, getting \$3 and two watches at Thomas' and \$8.65 at Purcell's, according to police reports. Mrs. B. M. Hall, of 960 Gordon, S. W., reported the theft of \$26 and a watch from her home. Nick Bikes, of 505 Central avenue, S. W., reported the loss of \$18.30 to a burglar who raided his trouser pockets.

Police Sunday announced arrest of Ben Frazier, negro, of 221 Lumpkin street, as a suspect in the holding of a Rogers store on Randolph street Saturday night in which shooting he

## FOLLOW THE Bible Game

\$1,800 IN CASH PRIZES!

The B. G. E. is frequently asked why must all verse-answers for the series of 80 Bible Game pictures come from one source—The Bible Treasury. There are two reasons:

First: There is just one appropriate verse-answer for any one picture in the Bible Treasury. The unabridged Scriptures, in which many stories and the sense of many verses are repeated, has in some instances several equally and nearly appropriate solutions to some of the pictures. If the unabridged Scriptures were used, contestants would occasionally be able to determine which verse the artist intended to illustrate, and the Bible Game would be a guessing contest.

Second: If verses from all of the many versions of the Scriptures, and the countless editions of these versions, most of which have minute discrepancies in wording or punctuation, were accepted as solutions, the task of checking the sets submitted would be a staggering one—not likely to be completed during the life spans of contestants, if it actually could be completed.

The Constitution does not wish readers to feel obligated to purchase a copy of the Bible Treasury in order to take part in the Bible Game. This book may be consulted at your local library.

However, at the request of readers, and for the convenience of those who desired the book in their homes, The Constitution has arranged to supply it at 50 cents a copy, or 54 cents by mail.

Questions and Answers  
Names and Addresses.

Q. Must a contestant's name and address be written on one of the answer-blanks beneath the pictures, even though the set is to be submitted in book form with this information on the cover?—H. G. R., Atlanta.

A. Yes. No Limit.

Q. I would appreciate it if you would let me know if I may send in several sets of pictures and verse-answers.—Mrs. J. W. T., Rome, Ga.

Anonymous letters from contestants who ask interesting questions frequently cannot, because of limited space, be answered in this column. Contestants can be assured that every one who signs their names and addresses, and their initials will be used if their questions are answered here.

Contestants may feel free to consult the Bible Game Editor at any time, by mail, in person, or by telephoning Walnut 6555. Reasonable questions will be answered gladly.

The Bible verse represented by this picture is:

No. 33

Book..... Chapter No..... Verse No.....

Name.....

Address.....

(Note: This picture is drawn to represent a verse chosen from the Bible Treasury, an abridgment of the "Authorized" or King James version of the Scriptures.)

INSTRUCTIONS.

The total prize money to be awarded Bible Game followers is \$1,800. The first prize is \$1,000. The second, \$400; the third, \$100; the fourth, \$75; and the fifth, \$25. There are ten prizes of \$10 each and twenty prizes of \$5 each.

The prizes will go to readers who submit the eighty most appropriate verse-answers for eighty pictures. No subscriptions need be obtained to qualify for any of the prizes, and non-subscribers are invited to take part. It is not necessary to register. There will be no essays to compose, letters to write, or extra pictures or puzzles to solve.

The Bible Game pictures and verse-answers are NOT to be submitted now. Wait until ALL of the pictures have been published, then bring or mail them in at one time, as a set.

Ministers Attack and Defend Key  
On Sunday Baseball Permit Here

Action of Mayor James L. Key in granting the Atlanta Baseball club permission to play a Sunday baseball game in defiance of the blue laws, was attacked and defended by Atlanta ministers in statements Sunday.

In an address at the meeting of Mayor Key's Bible class, Dr. Witherspoon Dodge, pastor of the Radio church, commended the mayor for his determination to see that Atlanta employs a policy of consistency with regard to Sunday amusements.

In a statement, Dr. Lonie D. Newton, pastor of Druid Hills Baptist church, said "I do not believe that any public servant, however benevolent, may be his personal intentions and such I believe Mr. Key's to be. He can set aside the law and instruct other public servants to support him in setting aside the law and avoid conflict with the principle of orderly society versus anarchy."

Dr. Dodge's statement.

Dr. Dodge said in part:

"Mayor Key is to be commended for his determination to see that Atlanta employs a policy of consistency with regard to Sunday amusements. Many Sunday amusements that now go unquestioned are clearly in violation of the law. Among these are golf, tennis, swimming, the cyclorama at Grant park, and perhaps the filling stations, drug stores, and a few other places. Now, if the city is going to permit these illegal uses of Sunday, there is no reason why baseball should be excluded. And, if baseball is not to be permitted, then let the city shut down everything but the churches, the electric light stations and the water works."

"It is much better for a city to have clean, out-of-door entertainment than it is for it to have dirty, indoor entertainment. There is immorality about the former, while the latter are fostered with corruption. Atlanta is the only city its size on the face of the globe where Sunday amusements are not permitted. They have been allowed for years in other cities of the south and all over the country. No grass has grown up in the streets of these cities, nor have they had even as bad a crime record as Atlanta. People are energetic beings who must have an outlet for their energies, and if this is not provided in innocent and wholesome ways, it will find vent in guilty and harmful ones."

"There will be no compulsion about the matter. Those who wish to attend the games may do so, and those who do not care to go may visit the parks or their neighbors. Laws were made for man, not men for laws; and when old laws have served their day and no longer meet the needs of changing conditions, they must be changed to afford social control and communal satisfaction. By bringing the matter to a head and securing the city's decision at the bar of public opinion, the mayor is rendering a greatly needed service to the city."

Dr. Newton's statement.

Dr. Newton said, in part:

"The people of Georgia, through representative government, have expressed their will relating to many subjects. Such expressed will we call the common law. It is not the will of many groups, as Dr. Ashby Jones so well says in the Constitution of July 30, but the will of the people. Regardless of whether everybody likes all the laws of Georgia or not, until such laws are repealed or amended by the regular processes of

## Airways Expansion Program Outlined by Chicagoan Here

New Planes To Be Put  
Into Service by American  
Airways, Says F.  
Warren Oakes Jr.

Aviation, growing steadily during the dark days of the depression, is being swamped with business as the result of better times and good weather. F. Warren Oakes Jr., of Chicago, vice president in charge of traffic of American Airways, said Sunday night on arrival here to begin a survey looking toward revised and faster schedules.

In order to meet the mounting demand for air transportation, American Airways soon will put into service 15 new 10-passenger Condors, a number of 10-passenger Lockheed, and eight new 10-passenger and V-1 monoplanes, Mr. Oakes said. The new Condors were designed by Vultee, the designer of the Lockheed, and they will be the fastest commercial ships in the air, he said.

The new Condors will have a top speed of 220 miles an hour, and a schedule speed of 185. They are single-engine, low-wing monoplanes, the first of the new design. Use of them on the New York-Chicago lines will cut the time to three hours and 19 minutes for the 750 miles.
